JOY Center of Learning

Catalogue #23

Pricing as of March, 2017

Sunday or Sabbath School teacher, home educator, life long

son, daughter, mother, father, grandparent, pastor, pastor's spouse, school teacher,

March 2017, from our home to yours:

We're excited - how about you?!! May of 2017 marks our 24th business anniversary. We began helping home educators eight years prior in 1985 and home educated for 20 years. In addition to having a heart for home educators, Bob and Maxine have been in full-time ministry as church pastors since June 1974. Out of our desire to serve and to come alongside to assist people to be successful in life we offer products for personal use, your family, your ministry, educational needs, your health needs, training in success, or even for gift giving.

DID YOU KNOW?

- Home educators can call on our 32+ years of active experience in that area.
- We offer our experience as lifelong Christians, as a full-time pastoral family, and as event speakers.
- We have resources for tutoring, schools, after school studies and home educators!
- We have a wonderful selection of curriculum resources, but when your children graduate from school or from your homeschool, you can still use our catalogue! Let your friends know about our wonderful resources.
- We sell more NON-curriculum/academic resources than specifically academic curriculum resources.
- **We can order a wide range** of books and materials beyond what is in this catalogue - just ask and we will see if one of our many suppliers has it, or check out our site at <http://www.ResourcesForBuildingLives.com>
- Pastors, missionaries, or counsellors - we have resources for you, your church, Sunday School, school and church library.

Excited yet?! We are!

ONLINE CATALOGUE – Allows us to pass more savings on to you and lots of helpful resources, including: **FREE seminars • special bonuses • pictures • product summaries • 50+ articles to read on a wide variety of topics • informative fliers to assist you with products you purchase from us**

Need a paper copy? 1. print the catalogue & articles yourself 2. request a paper catalogue with your order

EXPECT TO RECEIVE friendly service • free advice and direction when needed • encouragement

SHIPPING

- **Canadian orders go via Expedited Canada Post.**
- **U.S. and most foreign orders ship weekly from Lewiston, NY using Priority or Media mail - your choice.** Parcels move very quickly through the system at much less cost than shipping from Canada.

PRICING: The exchange rate fluctuates. We cannot change prices daily to accommodate fluctuations, but we pass along savings as they are available. Sometimes prices have to be raised - sometimes lowered!

THANK YOU GIFTS are sent for orders of over \$50.00 retail.

SOMETHING DIFFERENT: If we don't have it, we'll find it for you!

OUR WEB SITE: Be sure to visit often as we will be **adding new products** throughout the year, some of which will only be on the web site. **Join our once in a while online newsletter** - it is not a daily or weekly event!

We are only a phone call or email away so do not hesitate to call. **REMEMBER: we are in Ontario - Eastern time zone** – three hours ahead of the west coast and one hour behind the east coast. Please, no calls before 9:00 a.m. or after 8:00 p.m. (Eastern zone), or on Saturday or Sunday. You can pick up orders at the warehouse by calling ahead and we can arrange a mutually agreeable time, including on some Saturdays.

Our aim is to serve and to help you be successful.

“JOY” to you and yours - with **Jesus as Lord, Others to serve for God, You (yourself) to develop spiritually and academically.** May God bless and guide you along whatever path He leads you.

The McLellan family – Bob, Maxine and Andrea.

#MB7146 - \$6.47*CAD / \$5.47

Tangle Jr. Texture (colour will vary)
#MB7148 - \$6.97*CAD / \$5.97

Tangles are based on the concept of infinity and continuous motion. This "Magic in the Motion" that you feel when you play with a Tangle is truly therapeutic and calming to the soul! Once you put a Tangle in your hand, you just can't put it down!

A Tangle is more than just a toy. It is twistable energy that enables a free flow of creativity from your mind. Technically, a Tangle is a series of 90-degree curves, connected and able to pivot at each joint. It has no beginning and no end - just continuous motion!

"That fun, twisty thing!" Tangles have endless uses and serve a variety of different purposes. It can be a puzzle, a movable sculpture, a desktop toy, a fidget, a brain tool, an anti-stress device, a teacher supply, or even a cosmic art toy with special powers! The possibilities are limitless! Excellent for anyone who just "needs" to move.

GAMES / CRITICAL THINKING

TENZI

Everyone gets ten dice. Someone says “Go.” Then everyone rolls and rolls as fast as they can until someone gets all their dice on the same number. Sure, there are a few more rules, but you get the idea! Fun, builds togetherness, takes 30 seconds to play a game, **no electronics involved!**

With 4 levels of difficulty and 3 objectives, this edition contains a range of solitaire puzzles that are ideal for both beginner and expert Tantrix puzzle players. Includes: 1 wooden Tantrix Match tray, 113 Tantrix tiles, 12 Tantrix Match puzzle cards, instructions.

CRITICAL THINKING - Gr. 4-12

By Critical Thinking Press

The Basics of Critical Thinking (Gr. 4-9)
#CT8001 - \$28.97CAD / \$22.97USD

This book defines and teaches critical thinking in a way all students can understand through simple explanations, diagrams, and short, engaging activities. Although this book teaches common argument forms, its primary focus is identifying and evaluating evidence – the very basis of critical thinking. Most propaganda, advertising schemes, legal trickery, and bad science are not the result of complex arguments; they are the result of half-truths and simple arguments. Students who successfully complete this book will have a fundamental set of critical thinking skills they can use their entire lives. This full colour, 146 page book is **reproducible** and contains the answer key.

Practical Critical Thinking (Gr. 9-12)
Student #CT1211 - \$49.97CAD / \$39.97USD
Teacher #CT1212 - \$18.97CAD / \$14.97USD

Practical Critical Thinking engages students in the study of critical thinking. It lays a strong foundation in the important cognitive skills necessary for critical thinking, such as comprehension, analysis, evaluation, construction, creativity, and communication. Through fun and concrete activities—including Thought Experiments, Student Polls, Practice Sessions, Games and Puzzles, Predictions, and Important Takeaways — students explore topics essential to critical thinking, gaining tools that will help them apply critical thinking directly to their own lives. The 378 page reproducible student book is in full colour. The highly recommended Teacher Instruction/Answer key has 230 pages, contains all the answers, and also has **reproducible** black and white worksheets. You can not use just the Teacher book as much of the instruction is in the student book.

MIKRUT MUSIC

Lead Me to God CD

#7605 - \$6.97*CAD / \$6.97USD

Jesus said, "Let the little children come unto Me for of such is the Kingdom of heaven." These Scripture songs lead children in a very simple way to an understanding of the plan of salvation. This is a great CD to use in Sunday School to present the Gospel message of Jesus Christ to children. Predominantly KJV.

The Lord's Prayer CD

#7606 - \$6.97*CAD / \$6.97USD

This is truly a unique and beautiful version of The Lord's Prayer. It has 6 Scripture songs, which are lovely and simple to learn.

**Blessed is the family who learns
how to make melody
in their hearts together.**

Simple Scripture Songs

#7601 - Volume 1 \$6.97*CAD / \$6.97USD

#7602 - Volume 2 \$6.97*CAD / \$6.97USD

#7603 - Volume 3 \$6.97*CAD / \$6.97USD

Simple, meaning mostly keyboard and piano with a children's choir. Some people say that these are their favourite CDs. You will be thrilled with how quickly your children memorize Phillipians 2:5-11 or the entire Lord's Prayer, as well as many other Scriptures. Predominantly KJV. 11 to 12 songs per CD.

SCRIPTURE and CHARACTER CDs

Creation CD

By Rob Horvath

#V5101 \$19.97*CAD / \$19.97USD

Creation is an instrumental interpretation of the Biblical story of creation. Through ambient synthesizer textures, orchestral underpinnings and often primal percussive rhythms, Rob inspires the listener to visualize in his or her mind's eye several key elements of the story. There are sixteen tracks spanning over ninety minutes of music. This is a two-CD release in a jewel case. The second CD contains bonus content accessible through your computer; mp3 files of each track, and a high resolution Quicktime 7 or above video of "Creation Overture."

The Kids Hymnal

#M640BK - Book \$12.47 CAD / \$9.97USD

#M640CD - CD Set \$12.47*CAD / \$9.97USD

#M640S - Book/CD Set \$22.97*CAD / \$18.97USD

Perfect for children's choirs, Sunday School sing-alongs, or family fun at home! Grammy-nominated producer Stephen Elkins and Dove Award-winning arranger John DeVries present a timeless collection of 80 hymns, praise and worship selections, Scripture songs, children's favourites, and seasonal classics, including: Amazing Grace, Jesus Loves Me, The Lord's Prayer, Fairest Lord Jesus, Deep and Wide, Joy to the World, and many more. The book includes the melody line, lyrics, large print, colourful, eye-catching illustrations, and an application lesson and affirmation message for retention. The CD set features children singing all 80 songs. Please note: Some of the songs on the CD have a more contemporary style which a very conservative family might not enjoy. There is no rock beat or rap.

Sing the Word by Fred & Sarah Cooper
#7655 - Volume 1 + book \$15.47*CAD / \$12.97USD
#7656 - Volume 2 \$11.97*CAD / \$ 9.97USD
Scripture memory for long passages. Here's an easy way to memorize entire chapters and long passages of the Bible. When you attach the words to the music, you will be able to remember the passage. Since these songs are **word-for-word from the King James Version**, the music is in a classical church music style. CD includes voice and orchestra. It then repeats all the songs with orchestral accompaniment only. Passages are taken from the Old and New Testaments. Volume 1 comes with a book.

Verses & Hymns for the Very Young
#T511 CD \$6.97*CAD / \$6.97USD
For birth to preschool, but older children and adults will enjoy it as well. This is a delightful resource, beautiful for its simplicity. The 19 hymns and songs (14 originally written specifically for children) focus on God's word. Professionally done and reminiscent of hearing the kindergarten class sing at church! A woman or young children sing with no instrumental accompaniment to allow little ears to hear the tune and the words clearly. Children quote scripture verses between songs. Each nicely illustrated, laminated card has a Scripture verse (NJKV) and a verse of a hymn.

VAILLANT RECORDINGS

Are you looking for KJV Bible passages set to music that will elevate your thoughts to the courts of heaven? Scripture Songs to give you and your children great peace and joy? Folk Bible songs that you and the family will love and memorize for a lifetime of blessing! Then you have come to the right place. (No rock/rap)

Scripture Songs Songbook
#V5006 - \$13.47CAD / \$12.97USD
This song book has large print with the words to all the songs on Scripture Songs Volumes I through V. It contains simple guitar chords and is designed to open completely flat. There is **NO musical notation** for the melody line or for any piano pieces.

CD - \$14.97*CAD / \$12.97USD

#V5001 Scripture Songs I CD
This KJV Bible music offers 28 Bible promises which each family member can enjoy. The music is simple which gives emphasis to the Bible passages sung. Features female lead vocals and guitar.

#V5002 Scripture Songs II CD
This children's Christian music has many Bible promises which give encouragement and hope throughout the day. Female lead vocals, flute and guitar.

#V5003 Scripture Songs III CD
God's promises of deliverance for his children are beautifully sung with female lead vocals, classical guitar; grand piano and light orchestration. Bible memorization made easy.

#V5004 Scripture Songs IV CD
Worship God with this holy, sacred, spiritual music. The sowing of the gospel seed and its affect on the heart is the focus of this recording. Features all Bible passages with female lead vocals, classical guitar, grand piano, 12-string guitar and light orchestration.

#V5005 Scripture Songs V CD
God's amazing gift of "salvation through faith" is beautifully magnified in song. Praise and worship God with this beautiful gospel music. If you enjoyed the rest of the "Scripture Song" series you will want this one.

#V5020 La Harpé CD By: Isabelle Ruy
Peaceful and elevating Christian instrumental harp music by Isabelle Ruy of Paris, France. This album is soothing, relaxing, and musically interesting. Many are blessed by the peace of mind this recording offers.

#V5025 The Fehr Family By: The Fehr Family (CD only)
The Fehr Family presents with classical guitar accompaniment fourteen well-loved hymns of the faith. You will be encouraged and uplifted as you listen to this family of twelve sing praises to the Lord. (Recorded when the children were younger.)

#V5026 To Hymn With Praise By: Paul Dempsey (CD only)
Here you have heart warming hymns of faith to give you inspiration and courage with your walk with God. It is our desire that you may hold fast to God's precious promises of salvation and eternal life.

Studies have shown that the mastery of art and music concepts enhances academic ability.

"Much of what is said in the arts cannot be said in another way. To withhold artistic means of understanding is as much of a malpractice as to withhold mathematics."

Howard Gardner, Harvard's Graduate School of Education

Current studies link art education with higher performance in academic subjects.

"The 1987, 1988, and 1989 profiles of high school students who take art courses tend to have higher scores on the Scholastic Aptitude Test (SAT) than those who do not." SAT Scores Found to Correlate with Art Study." Soundpost, vol. 18, 1990, p. 21

Can you afford to neglect art and music instruction?

LAP HARPS

Stringed instruments for ages 4 through adults

The Music Maker Lap Harp (Key of G)

#MM2001 - \$46.97*CAD / \$39.97USD

Full musical notation - whole notes down to 16th notes

The Melody Lap Harp (Key of C)

#MH3001 - \$46.97*CAD / \$39.97USD

Simplified musical notation - whole, ½, and ¼ notes

Lap Harps let everyone, regardless of musical experience, play beautiful music by simply sliding a song sheet under the strings and plucking the string above each printed note. It's that easy! More than a toy, this instrument can be a stepping stone in developing a love for music. Graduate beyond the song cards and create your own music!

The ease of play, combined with renowned quality construction, is what make the Music Maker and the Melody Harp favourite instruments. Made of quality hardwood to give exceptional tonal qualities.

Each 13"x8"x2" trapezoid shaped harp comes with a tuning wrench, pick, extra string, lifetime string replacement, twelve songs and comes pre-tuned. The difference between the two harps is the key it is tuned to and the selection of song packets available.

E-Z Tuner #MH3037 - \$24.97*CAD / \$19.97USD
Now anyone can tune a stringed musical instrument with little musical knowledge. The EZ Tuner senses musical vibrations. You simply need to know which note you want and then tighten or loosen the string until the display reads that note. This tuner works with lap harps, guitars, ukuleles, banjos, violins, and more. For those who know more about music, it can be set for a Diatonic or Chromatic scale. You can also adjust the tuning hertz. We recommend tuning your lap harp to 432hz (earth's vibration) or 444hz (the hertz King David used) for the best sound on your instrument. The international standard is 440hz.

Tuning Pitch Pipe

#MH3036 - \$31.47*CAD / \$24.97USD
Make tuning your instrument simple. Our tuning pitch pipe is the perfect accessory for tuning your lap harp. Chromatic A-440, 13 key Pitch Pipe includes case.

Replacement Tuner - Regular

#MM2040 - \$3.97*CAD / \$2.97USD
Lost the tuner that came with your lap harp? This inexpensive tuning bar will do the trick.

Heavy Duty Tuner

#MM2041 - \$7.47*CAD / \$5.97USD
A must for anyone who does an appreciable amount of tuning. Nickel plated metal. Strong and long-wearing.

Replacement Wire/String

#MM2042 - \$0.97*CAD / \$0.97USD
This is for those who don't want to worry about sending a self-addressed stamped envelope to get a replacement for a broken string.

Yerbonitsa Lap Harp

#MM4001 - \$74.97*CAD / \$59.97USD
Boasting graceful, flowing lines, Yerbonitsa (pronounced: yehr-bo-neat-sah) is named after a beautiful Belorussian folk dance. This larger, 17" X 11" zither has been produced for those who asked for larger version of the Music Maker. Like the Music Maker, it has fifteen strings, a decorative instrument face, and comes tuned. The Yerbonitsa comes with 12 songs, a pick, a tuner, and a spare wire. This instrument is handmade using ash and specially selected hardwoods. Because of this, each instrument is unique.

JOY • NOTES MUSIC

Joy•Notes Full Package

#4031 - \$149.97*CAD / \$149.97USD
Contains: Primer, Book 1, Book 2, Curriculum Guide, two Teaching Guide CDs, Joy Notes Patterns

Additional Student Package

#4032 - \$59.97CAD / \$59.97USD
Includes Primer, Book 1, and Book 2 workbooks

The musical language skills gained through the Joy•Notes course provide the foundation for all instruments, including the voice. The ability to read and understand the musical language opens up a rewarding and beautiful appreciation for God's gift of music.

By learning the language of music with a piano keyboard, the student has the added benefit of "seeing" the music in "black and white."

Beginning with the first lesson, the student will:

1. learn to hear, see, and feel music simultaneously
2. learn to see patterns in music notation
3. learn that the staff lines are simply a visual picture of music in any form and on any instrument and they will learn how to understand those "pictures"
4. be taught the skill of understanding musical language such that they will be able to go on to play any musical instrument, including the vocal chords
5. learn to play both hands together
6. be taught in such a way that they will not get hung up on "note names" or confusing counting instructions
7. will learn proper hand and finger positions for piano
8. will lay the foundation for quicker learning at higher levels once they graduate from the Joy•Notes course.

Joy•Notes simplifies the teaching and this step-by-step method literally takes the student, and you as the teaching parent if that is the case, by the hand

Course Content

The Joy•Notes course covers approximately two years of instruction, depending on the amount of time spent in practice. The student will be ready for grade two conservatory lessons, or to learn with any other types of lessons or private study.

Program includes the following materials:

- three workbooks
- Curriculum Guide - easy enough for even the musically challenged to understand but impressive enough for the skilled musician to appreciate!
- Teaching Guide on 2 CDs - Joyce Piper covers each concept in the course (takes you by the hand!)
- Joy•Notes Patterns - 5 note pattern cards, keyboard staff templates, and 8 note pattern cards.

MASTER'S MUSIC COURSES

The Master's Music Courses are specially designed to meet the needs of every Christian wishing to study music.

- consist entirely of Christian hymns, choruses, and songs
- music theory and techniques are carefully and logically introduced
- include fingering charts and chord symbols for accompanying instruments
- do not contain any rock or rap music

Accompaniment CDs

- split track stereo recording
- parts can be played with or without orchestration
- excellent enhancement to the music program
- encourages more practice and progress
- recommended but not required for courses
- contain all the hymns used in the book it corresponds with

The Master's Piano Course

- step-by-step instructions
- logical approach starting with the right hand
- includes scales and triads

Younger Beginners

#4004 Piano Primer - \$9.97CAD / \$9.97USD

Older Beginners

#4005 Piano Book 1 - \$9.97CAD / \$9.97USD

The Master's Pan Flute Method

#4016 Course Book \$7.97CAD / \$7.97USD

- written for the 12-Tube Pan Flute
- teaches Key of C with notes from Low A to High E (12 diatonic notes) using 28 hymns
- includes chord symbols for accompanying instruments

The Master's Recorder Course

Each book is designed for use with soprano recorders and includes fingering charts and chord symbols for accompanying instruments. The recorder is a super versatile instrument used in both beginning music programs as well as in the most prestigious concert halls of the world. A predecessor to the modern flute but much easier to play, recorder musicians play solos and in duets, quartets, and church ensembles.

Recorder Course Book 1

#4001 Book 1 \$9.97CAD / \$9.97USD

#4011 Tests 1 \$2.97CAD / \$2.97USD

#4009 Book 1 and 2 CD \$14.47*CAD / \$14.47USD

All hymns, choruses and songs have been presented in a logical sequence, utilizing each technique or note learned. Book One consists of 6 Duets, 1 quartet, 32 hymns. German and Baroque fingering are CLEARLY SHOWN where applicable, and cord symbols are provided for any accompanying instruments.

Recorder Course Book 2

#4002 Book 2 \$9.97CAD / \$9.97USD

#4012 Tests 2 \$2.97CAD / \$2.97USD

#4009 Book 1 and 2 CD \$14.47*CAD / \$14.47USD

Book 2 continues from where the first book leaves off. It includes several techniques that were not covered in the first book (e.g. slurs, six-eight time, etc.). It also covers all major key signatures up to and including 4 sharps and 4 flats, while reinforcing each key with hymns that are introduced in order of difficulty. Also covered are enharmonic notes, minor keys, and modulation. The total musical range studied is from middle C up to high G. Just as in the first book, both German and Baroque fingerings are shown clearly wherever the difference exists. This book also includes eight four-part arrangements which can be used from the midway point of Book One.

Alto Recorder Course

#4014 Book \$16.67CAD / \$16.67USD

This course takes the two books written for the soprano recorder and combines them into one book written for the alto recorder. German and Baroque fingering are CLEARLY SHOWN where applicable, and cord symbols are provided for any accompanying instruments. It teaches both hymnal and traditional music reading using 69 hymns.

The Master's Rudiments of Music

#4020 Book \$29.97CAD / \$29.97USD

#4021 Answer Key \$29.97CAD / \$29.97USD

This book contains not only the elementary rudiments of music but also covers the areas of music notation necessary for the understanding of music. Knowledge is very important and is thoroughly addressed throughout but, even more important is understanding, and it is the latter that this book focusses on. This comprehensive music theory book presents the elements of music in a logical sequence. Each section and the corresponding, very thorough exercises are classified according to the three levels common to many examination institutions.

BOOKS FOR YOUNG MEN

BOOKS FOR YOUNG MEN

Boyhood and Beyond: Practical Wisdom For Becoming a Man #S958 - \$13.97CAD / \$10.97USD

Author: Bob Schultz (Ages 10-18)

Boys who are on the road to becoming men of honour, courage, and faith will greatly benefit from the heartfelt encouragement and sound advice offered in this book. Wisdom and common sense are gleaned from short chapters covering topics such as authority, inventiveness, and honesty as well as learning to overcome things like fear, laziness, and temptation. Boys will be motivated to build their lives on a foundation of strong moral principles and to become the men God wants them to be. This "life" book is designed to be read and lived out in a boy's life, thus becoming one of his building blocks to godly character, and ultimately manhood. Read alone, or in a group. Discussion questions included. *5 star rating!* (Paperback, 219 pgs)

Created for Work: Practical Insights for Young Men #S959 - \$13.97CAD / \$10.97USD

Author: Bob Schultz (paperback, 181 pages)

All young men should be on the road to developing a healthy attitude toward work. Honest productive work is the backbone of strong families and blessed nations. Bob Schultz applies his engaging homespun wisdom, with stories from real life, to teach young men (and boys) what it means to be good workers. Questions at the end of each chapter make this book an excellent read-aloud book for a father and son or for group discussion. While geared to boys, girls will enjoy and learn a lot as well. *5 star rating!* (Ages 10 -18)

Practical Happiness: A Young Man's Guide to a Contented Life

#S965 - \$13.97CAD / \$10.97USD

Author: Bob Schultz (paperback, 223 pages)

Practical Happiness offers young men counsel as to how they can find the path that leads to inner joy and lasting contentment. Through short captivating stories, Bob Schultz has crafted a book to lead young men toward a life of contentment that can be found only by seeking the heart of God. Young men will learn that happiness is not found in what they have, where they go or their next exciting adventure, but rather in their attitude and response to life, especially when things aren't going "their" way. This book will light a fire in the hearts of young men, leading them to a life of personal fulfilment as they draw closer to God. (Ages 12+)

The Princess and the Kiss: A story of God's Gift of Purity

#S705 Without CD . \$15.97CAD / \$12.97USD

#S705CD With CD \$19.97CAD / \$15.97USD

Author: Jennie Bishop (Hardcover, 32 pages)

A loving king and queen present their daughter with a gift from God – her first kiss – to keep or to give away. The wise girl waits for the man who is worthy of her precious gift. Where is he and how will she ever find him? The surprising answer in this marvellous parable will touch the heart of parent and child alike. The Princess and the Kiss beautifully portrays the ageless message that "love ... comes from a pure heart and a good conscience and a sincere faith" (1 Timothy 1:5 NIV). This book teaches the importance and beauty of saving themselves for marriage. Suggestion: would make a symbolic gift for a girl's 12th or 13th birthday. Reading level: ages 4 -11. Recommended for all ages.

Author: Scott Turansky and Joanne Miller (256 pgs)

Anger has a positive side and can help parents identify problems that need attention in their children. This book helps parents view their anger constructively, using it to lead them to practical solutions for each of the seven most common problems that parents see in their kids. These solutions not only help children change their hearts, but also foster positive character qualities that will enable them to relate to God in a healthy way. Includes questions for discussion and special activities to do with your children.

Hints on Child Training

#S615 - \$11.47 CAD / \$8.97USD

Author: H. Clay Trumball (Paperback, 193 pages)

This book has been helping parents like you...for more than 100 years. Much has changed over the last hundred years, but some things never change. Children will always need to be loved and disciplined. They will always need to be taught responsibility,

courtesy, self-control, and good habits leading to godly character. In 1890, Elisabeth Elliot's great-grandfather wrote his child-training "hints" at age 60 after raising eight children of his own. This evangelist, biblical archaeologist, Civil War chaplain, and Sunday school pioneer shares from a lifetime of practical experience.

Parenting is Heart Work

Say Goodbye to Whining, Complaining, and Bad Attitudes in You and Your Kids!

#S613 - \$18.97CAD / \$14.97USD

Author: Scott Turansky and Joanne Miller (240 pages)

What if honour and respect were the primary dynamics in your household? Would your days look any different? Dr. Scott Turansky and Joanne Miller offer a thorough, complete program for establishing honour between all family members as a basis of family life. Even if honour seems a long way off in your household, you will find practical suggestions here to bring that goal just a little closer - suggestions for children and adults of all ages. Honour is the biblical value that will bring about good behaviour. It's more than just changing what kids do; it's changing the deeper issues of the heart that triggered the behaviour. (Paperback)

Shepherding a Child's Heart

#S603 - \$17.47CAD / \$13.97USD

Author: Ted Tripp (paperback, 215 pages)

The ultimate goal of child training is to have your child living to please God, not man. Ted Tripp builds a solid, Biblical argument for getting to the heart of your child's behaviour and gives guidance for achieving the ultimate goal. The application questions at the end of each chapter will help you to understand your role as a parent in leading a child into a relationship with God. Learn how to use the Bible to instruct children to be obedient to God and to love wisdom. Easy to read with lots of practical examples, this book is an excellent tool for parents, a parenting class or Sunday school.

Designed to use alongside of Shepherding A Child's Heart, it will lead you into a deeper understanding of the biblical concepts that are spelled out. It does more than just rehearse the material in the book. (Paperback, 143 pages)

BOOKS - LOVE LANGUAGES / LIFE LEGACY

LOVE LANGUAGES

Five Love Languages Series

Author: Gary Chapman

People communicate and receive love in a number of different ways. Each of us approaches life through one main love language and may be totally unable to understand the others. Sometimes children and even adults do not feel like they are loved simply because they do not recognize it when it is shown in a love language other than their own. You can avoid misunderstandings in the family by understanding what each other is really saying. You may speak a different love language than your children, spouse, brothers, sisters, or other family members and that can cause friction. Let these books show you how to put yourself into their shoes and view life through their eyes.

(paperback, 200+ pages each)

LIFE LEGACY - PERSONAL HISTORY

To My Family - My Life Legacy Journal

Faith based . . . #1601 - \$20.97CAD / \$20.97USD

Generic #1602 - \$20.97CAD / \$20.97USD

CD (both) #1603 - \$19.97*CAD / \$19.97USD

CD contains both versions in Microsoft Word format.

These are critical years. We're losing one of our richest, most meaningful natural resources - the wisdom of our mothers, fathers and grandparents who fought in the war, dug deeply into life through the depression years and experienced the transition from horse and buggy days to our wired world.

Bestow a blessing on your family by leaving them with a written legacy. Use the personal 150 page legacy workbooks with ethical will resources to record your reflections, values, experiences and family history for future generations. The faith based version features corresponding Scripture verses with each section.

- * Preserve your thoughts on over 40 important life topics.
- * Record your family tree, family history and valuable highlights.
- * Impart to your loved ones a personally written blessing or your hopes and dreams for them.
- * Pass along cherished traditions, favourite recipes and family stories.
- * Define and establish the foundational values of your home.
- * Communicate wisdom that will preserve and protect your family.

Whether you consider yourself a writer or not, doesn't matter. It is the thoughts and information you convey that your children will value - not the punctuation or the way you write. Be yourself. Write what comes from your heart.

TRAINING BOOKS

Don't cheat yourself by approaching life, marriage, or parenting, without being equipped. Too often people fumble through life "winging it" and hoping they are "getting it right," only to come down to the end with less than the results they had hoped for. Resources are available to help you. If you cannot afford training tools - books, videos, seminars, DVDs – for yourself as well as curriculum for the children, invest in the tools for you first. You will be glad you did!

SUCCESS TRAINING

While the major portion of this catalogue focusses on tools to help you with practical, academic resources for providing individuals for what could be called the schooling process, I would encourage you to consider including this component which provides the essentials for being a well rounded and complete person. Having the ability to bless and benefit the lives of others with an understanding of our responsibility and accountability to be the best we can be is an important part of what true success is all about.

Education is not just about the accumulation of information and facts, it is about being trained to think independently and creatively while being able to work with others when needed. We recommend you include the books in this section as mandatory reading for every person over the age of twelve, including adults. Everyone is a person of influence, either in a positive or negative way. Be a person of positive influence by choice, rather than a negative influence by default.

There might be someone who would say, "But I don't like to read" or "My children do not like to read." Get over it! Leaders are readers and readers are leaders SO since you are a leader and an influencer of others, be proactive and lead by example. To chose to be less than you can be is to cheat yourself and those who are counting on you to be more than you are.

Marianne Williamson wrote, "Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness that frightens us. We ask ourselves, who am I to be brilliant, gorgeous, talented, fabulous? Actually, who are you NOT to be? You are a child of God. Your playing small does not serve the world. There is nothing enlightened about shrinking so that other people won't feel insecure around you. We are meant to shine, as children do. We are born to manifest the glory of God that is within us. It is not just in some of us, it's in everyone. And as we let our own light shine, we unconsciously give other people permission to do

the same. As we are liberated from our own fear, our presence automatically liberates others." That quote is worth rereading and pondering on!

What you think, and what you believe and what you say matters because it impacts your actions, which determine the outcomes in your life. What kind of outcomes do you want for your life, for your children? Take the time, make the effort to take advantage of the training offered through the resources in this section of the catalogue. History has shown a significant number of the most successful and influential leaders have not been those with the highest levels of structured schooling, but those who have known and implemented the training revealed in these books.

A successful life requires more than just academics. These books will provide you with the tools to be, do, and have the abundant life God has called you and your children to. They will help you to become effective influencers, increasing your abilities to minister to others. The principles these books teach can be applied to any area of life.

Acres of Diamonds Author: Russell Conwell

SUCCESS TRAINING by Napoleon Hill

The principles and philosophy taught by Napoleon Hill began when he was commissioned by Andrew Carnegie, the wealthiest individual in the world at the beginning of the twentieth century. This commission lasted for twenty-five years. Hill gained access to the wealthiest and most influential leaders discovering what they did to be successful. The information in this book section reveal the results of his twenty-five years of research and beyond. There are universal principles and laws that apply to every area of life and when implemented provide the possibility for success in whatever area of endeavour. These books are not just about making money and acquiring things, because without a proper balance and understanding of what true success is all about, the love of money by and for itself will be destructive to a successful life. The Napoleon Hill Foundation continues to provide the opportunity for people of this generation to access the benefits revealed through more than forty years of

BOOKS / SUCCESS TRAINING

ongoing research by one of the most informed people on the subject of true success. Universal principles are never outdated and are just as valid for the twenty-first century as when they were written.

When most people think of success and getting rich they immediately think of money. While money can be a component, there is far more to success and true riches than just money. Many people who have money can not be considered truly successful and there are those with little money who could be considered extremely successful. These books by Napoleon Hill are designed to help you fulfill God's plan and design for your life. They provide a road map on living out the Golden Rule.

If you have not read any books by Napoleon Hill before, we recommend starting with either *Think and Grow Rich* or *The Law of Success in 16 Lessons*. These books lay the foundation for his other books.

My Keepsake Book (Author: Andrea McLellan)

#1011 - \$8.97CAD / \$8.57USD

Illustrated with nostalgic line drawings, there is a KJV Scripture verse and a character quality definition for each letter of the alphabet, and prose selections for your child to copy. It showcases the hard work your child has done in learning how to neatly print or to write in a cursive style. There is space to record how the child has demonstrated the Scripture or character quality in their life. It can also be used as a family devotional guide as you study each character quality.

Stetro Rubber Pencil Grips

#333 - \$0.97*CAD / \$0.79USD

These pencil grips will help train your child to hold a pencil properly and thus avoid poor habits which are difficult to undo. Suitable for left or right-hand use.

READING RESOURCES

Alphabet Felt Letters - Uncut

LANGUAGE ARTS

Climbing to Good English (CGE)

Comprehensive Grammar and Writing Skills Curriculum for Grades 1-8

• **Christian values** - solid instruction in language arts, research and writing skills without frills and fluff.

• **Economical** – Climbing to Good English packs a lot of value into very inexpensively priced teacher guides and student workbooks.

• **Comprehensive and advanced** - The books should be considered more as “levels.” Many children in older grades would benefit from beginning with Level 3 if they have not had a good foundation in grammar.

• **Designed for all student abilities** – The workbooks fit both slow and fast pupils. Each page has plenty of work for the average student.

• **3 to 5 lessons per week** – Levels 1-3 each have five lessons per week. Levels 4-8 have three lessons per week. Optional extra practice pages are available for use on the other two days, as practice work for those needing it, or as extra work for faster students.

• **Easy-to-use teacher guides** – “A book is only as good as the teacher who teaches it.” Though a teacher’s edition can’t substitute for the teacher, it certainly can help by suggesting ways of presenting lessons, giving ideas for drill and extra work, and saving time by giving the answers. Review work, tests, and suggested grading methods are also given.

• **Dual grade teaching guides for Levels 5/6 and 7/8** – To help parents save time by making it possible to teach two grades levels in one session, two grades are combined into each hardbound teacher guide. Both grades study the same concepts at the same time. However, sixth and eighth grades are generally on a harder level and often have more work than the fifth and seventh grades. How this can be done is easy to understand if you consider how the skill subjects such as arithmetic, reading, and English are taught. It is very much like building a wall. Each course has the same kind of blocks and mortar, but is on a higher level than the one before.

• **Encourages independent learning** – The pupils are expected to help themselves do much of the work independently without much teacher help. The older a pupil becomes, the more he is expected to do this.

• **Complete and thorough** – Starting with a phonics review and introduction to basic parts of speech and writing skills in grade one, CGE takes the student through to advanced language arts skills in grade eight.

• **College/University preparation:** people have reported testing out of first year college/university introductory English courses based on proficiency gained with mastery of Climbing to Good English. Use 8th level as a highschool refresher course.

• **Writing skills** – all writing skills are covered, including letters, research and note taking, report and essay writing, summarizing, and proofreading skills.

REGARDING CLIMBING TO GOOD ENGLISH:

CGE is easy to use and thorough but not as intense as . . . about grammatical constructs. . . It is simply much more practical in scope—lots of letter-writing, paragraphing, correct usage, mechanics--as opposed to lots of grammar terminology and repetitious exercises. Enough instruction and examples are provided that these workbooks require little teaching time from the parent. They are designed for a one-room school, which is very helpful when one has a quiverful to teach.
Deborah, 2002

I found this language series [Climbing to Good English] to be both challenging and interesting. The skills are taught in a natural progression, with easily understood explanations. The series has a thorough method of reinforcement with practice sheets, reviews, and tests. All in all, it’s a series that serves students well.

Valerie Brown, retired 6th grade school English teacher

VOCABULARY DEVELOPMENT

Reading comprehension skills, communication skills, salaries and employment positions are dependant upon vocabulary. The higher the vocabulary, the greater the opportunities in life. Do not neglect developing vocabulary through study, the written word, and conversation. The Reading Development Series, Pathway Working With Words, Word Roots, Sequential Spelling, and the Phonics Drill Reader are terrific aids for all ages through to adults.

WORD ROOTS *by Critical Thinking Press*

Word Roots teach your child the meanings of Latin and Greek prefixes, roots, and suffixes commonly used in English. Learning word elements dramatically improves spelling and the ability to decode unfamiliar words. Word Roots will add hundreds of words to your students' vocabulary and greater depth to their thinking and writing. The books include a pretest/post-test, answers, and a dictionary of words derived from Latin or Latin/Greek roots. (**Reproducible workbook**)

WRITING DETECTIVE

Writing Detective by Critical Thinking Press

Level 1 #CT10501 - \$15.97CAD / \$12.97USD
Students in Gr. 3-6 act as investigative reporters writing articles for a local newspaper. To write the article, students must use higher-order thinking skills to synthesize clues they identify in the story to solve the mystery. The stories are high interest to make it easy to motivate students to do the analytical work needed to piece together the evidence and write the article. Before writing, students complete an outline detailing When, Who, What, Where, and How or Why. These activities develop reading comprehension, higher-order thinking, and writing and organization skills. Answers and simple scoring rubric provided.

Recommendations:

Printing - The Printing with Character Kits (#1010 & #1016) teach a simple, proven method of printing that leads easily into cursive and is helpful for eliminating letter reversals.

Felt Letters (#439 and #427) - Excellent for hands-on and visual learners. Good for teaching syllabication.

"The Pathway readers are well done and so interesting. This series has been done for children learning English as a second language. The stories in the first three grades are centred around a family's farming life. I appreciated so much the good values they teach.

"I am finishing my 3rd year with Climbing to Good English which is excellent for English grammar. On my part, I have tried many things... finding the content of English books either insignificant or too advanced. This one is very good and is easy to use with one page per day. In the more advanced levels they refer to the Bible. I am really pleased and so satisfied with my English now. Even my older boy, who was more advanced, I started back in Level 2 so he would have a better foundation in English. It teaches how to write from grade one on, starting with simple sentences, and then it moves on to paragraphs, stories, book reports, and much more." Ginette Gaucher, 2004 (ESL)

Which do you recommend - Pathway Readers or the Reading Development Series?

We recommend both programs. We particularly like the Pathway Readers up through Grade 3 as they follow the life of a few families and the children reading the books get to know and relate the characters. At the higher levels, Pathway focuses on basic reading comprehension. Reading Development Series focuses more on developing skills for extracting information from what was read and reading speed.

READING DEVELOPMENT SERIES (RD)

Originally published in Canada in the mid 1900s, this revised edition is largely based on the original but with some improvements in content. Students will enjoy the various settings of people and animals from all over the world. The carefully graded stories teach morals without overt Christian doctrine or Bible stories.

The components of this program can be used separately.

- The Workbooks are designed to teach reading skills and can be used with or without the Reader.
- The Vocabulary Workbooks introduce the student to words taken from the stories and also includes comprehension questions.
- The Vocabulary Workbooks would be an excellent vocabulary building series on their own.
- Both the Workbook and the Vocabulary Workbook provide information and insights, expanding student understanding of what was read in the Reader.

Readers: Stories have a wide variety of settings and contain some black and white illustrations. Hard cover.

Vocabulary Workbook: Contains exercises designed to teach the most difficult words in each story. New words are taught and used in context. Also includes comprehension questions about the story.

Student Workbook: Contains independent seat work and exercises that are designed to build reading skills. Teaches how to find different types of answers.

Levels: The Reading Development Series is an accelerated program. Grade equivalents:

Level 1 = 1st grade

Level 2 = 2nd to mid 3rd grade level

Level 3 = 3rd to 4th grade level

Level 4 = 5th to 6th grade level

Level 5 = 6th to 7th grade level

Level 6 = 7th to 8th grade level

Level 7 = 9th to 10th grade level

Level 8 = 11th to 12th grade level

Grammar and Writing Skills: This program does not specifically cover grammar or writing. We recommend using the Climbing to Good English program along side the Reading Development Series to cover all the other areas of Language Arts. Together, they form a very complete program. Climbing to Good English is also accelerated and runs along the same schedule.

Reading Kit: Includes all of the Reading Development Series Books at that level

Language Arts Kit: Includes Climbing to Good English along with all of the Reading Development Series books at that level.

LIFE OF FRED LANGUAGE ARTS

The Life of Fred Language Arts books were written by Dr. Stanley Schmidt with the intent to make the English language come alive with lots of humour, clear explanations, and silly illustrations that stick in the mind. The student will learn to think and to communicate effectively while also learning often little known but interesting facts in the areas of geography, history, music, science and much more. If you have enjoyed Life of Fred Math be prepared for more of the same zany but insightful and effective training methods.

Don't be misled by the unusual titles. Fred covers a lot of English concepts and life lessons in every book. The four books are short. Each contains 19 daily lessons. Since each lesson contains so much material, doing these four books **once a year during your high school years** would be a really good idea.

MATH MANIPULATIVES

Attribute Block Set

#E67362 - \$12.97*CAD / \$11.97USD

With the attributes of size, shape, colour and thickness, they assist in the development of problem solving using logic. The related sizes make them useful for demonstrating fractions and their relationships. Set contains 60 desk-sized plastic blocks in 5 shapes, 2 thicknesses, 2 sizes and 3 colours.

Felt Letters & Numbers - Uncut

#427 - \$6.97*CAD / \$6.97USD

These felt sets are printed in brilliant colours on heavy quality felt for lasting durability in the hands of many children! 134 UNCUT pieces - one each of all upper & lower case letters + extras of frequently used letters, 2 each of numbers 1-10, and math & punctuation symbols. Available in red, yellow and blue. 2" tall.

ABACUS

★ Horizontal Abacus

#E92018 - \$17.87*CAD / \$15.47USD

This high quality wooden abacus is designed to allow students to perform basic operations and learn strategies for math. The red and white beads are grouped in fives and tens and one side is marked with 1000, 100, 10 and 1. Measures 9.675" x 7.5".

★ Place Value Counting Frame

#E92070 - \$19.97*CAD / \$16.97USD

(Gr 2+) This novel place value counter is colour coded to match the recognized colours for 10 values from thousandths to millions. With 10 beads per bar it makes carrying over easy to understand. The roll over function hides away the unused beads so the focus is on the beads in use. Measures 6" tall x 5 3/4" wide x 2 1/4" deep.

BASE TEN

Warning: The items in this category contain small pieces. Not recommended for children under 3.

Base ten blocks provide concrete models that give meaning to place value and operations of whole numbers, decimals, and algebra concepts.

★ Interlocking Base Ten Starter Set - Blue

#E48150 - \$29.67*CAD / \$24.27USD

(Gr 1+) Contains 100 unit cubes, 30 rods, 10 flats, 1 decimeter cube and teacher's guide. (Not as pictured)

★ Interlocking Base Ten Blocks

100 Units . . . #E48162B - \$3.67*CAD / \$2.97USD

10 Rods #E48164B - \$2.07*CAD / \$1.77USD

10 Flats #E48166B - \$10.67*CAD / \$8.97USD

1 Cube #E48168B - \$4.37*CAD / \$3.67USD

Units are 1 cm square cubes and represent ones. Rods are 1 cm X 10 cm and represent 10s. Flats are 10cm X 10 cm and represent 100s. Cubes are 10cm square cubes and represent 1,000s. They only interlock in one direction. The blocks can be linked by stacking them together.

★ Enhanced Points of Departure with Base Ten Blocks

#E20804 - \$5.97*CAD / \$4.97USD

Full colour teacher's guide with 31 pages of activities to challenge students.

COUNTING, SORTING, PATTERNS

Warning: With the exception of the Beginner Counting Set, the items in this category contain small pieces. Not recommended for children under 3.

Beginner Counting Set

Precut - #417C - \$28.97*CAD / \$22.97USD

These felt sets are printed in brilliant colours on heavy quality felt for lasting durability in the hands of many children! Great for: sorting, matching, counting, talking about differences, tactile development, memory matching games, visualizing math equations and much more. 10 each of 10 2 1/2" figures snowman, pumpkin, dog, cat, duck, etc., two each of numerals 1-10, and 22 math symbols.

MATHEMATICS

★ Chain Links

100 Links #E16460 - \$5.37*CAD / \$4.57USD
 1000 Links . . . #E16465 - \$34.97*CAD / 29.97USD
 Children can use these to build up their skills in patterning, counting, sorting and measuring. 1 5/8" long x 3/4" wide. The 100 links has 4 colours. The 1000 links has 6 colours.

★ Counting Chickens

40 Pieces #E14150 - \$6.67*CAD / \$5.97USD
 Fun baby chicken counters make learning fun! Set of 40 soft rubber counters in 4 colours. These bright and colourful chickens offer endless possibilities for counting, sorting and classifying. Ideal for math and science activities or even as rewards!

★ Transparent Circle Counting Chips

250 Chips #E13996 - \$6.67*CAD / \$5.97USD
 1000 Chips . . #E13998 - \$24.97*CAD / \$20.97USD
 (Gr PreK +) 3/4" in diameter, these transparent plastic counting chips come in 6 colors. Works great on the overhead projector for teaching basic operations.

★ Two Colour Counters - Foam

200 Chips #E13990 - \$6.67*CAD / \$5.97USD
 (Gr PreK+) 1" (2.5 cm) diameter, 3/16" (5 mm) thick. These two-sided foam counters are red on one side and white on the other. Use for illustrating basic operations, counting, patterning, and more.

★ Two Colour Counters - Magnetic

200 Chips . . . #E13988 - \$13.47*CAD / \$11.47USD
 (Gr K +) Red and yellow counters measure 1" (2.5 cm) in diameter and are magnetic on both sides. Use for illustrating basic operations, counting, patterning, and more.

FRACTIONS

Warning: The items in this category contain small pieces. Not recommended for children under 3.

★ Fraction Circles - Magnetic

#E75148 - \$11.97*CAD / \$10.27USD
 Coloured magnetic fraction circles are excellent for finding equivalent fractions. 4.5" in diameter and includes 1/2, 1/3, 1/4, 1/5, 1/6, 1/7, 1/8, 1/9, 1/10, 1/14 and 1. (69 pieces)

★ Fraction Circles - Foam

#E41598 - \$5.67*CAD / \$4.97USD
 Each set includes 1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10 and 1/12. Made of 4 mm (3/16") thick foam. (51 pieces)

★ Fraction Squares - Foam

#E41596 - \$5.67*CAD / \$4.97USD
 Set includes 1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10 and 1/12. Made of 4 mm (3/16") thick foam. (51 pieces)

★ Fraction Tiles - Magnetic Foam

#E41410 - \$5.37*CAD / \$4.57USD
 Unique tool to help students understand and compare fractions with these colorful fraction tiles. Set includes 1, 1/2, 1/3, 1/4, 1/5, 1/6, 1/8, 1/10, 1/12. Made with 5 mm thick foam and a magnetic back. (51 pieces)

PATTERN BLOCKS

Use pattern blocks to explore patterns, symmetry, linear and area measurement, fractions, and problem solving. They are used with many critical thinking programs. Each shape is a different colour.

Plastic Pattern Blocks

#E13690 - \$14.97*CAD / \$12.97USD

These 1 cm thick pattern blocks are made of sturdy plastic with a cookie-cutter- type design. The set contains 250 pieces in 6 shapes and colours. Comes in a plastic bag - no storage container.

Wooden Pattern Blocks

#E10908 - \$29.47*CAD / \$24.97USD

These 1 cm thick pattern blocks are made of solid wood. The set contains 250 pieces in 6 shapes and colours. Comes with a storage container.

Magnetic Foam Pattern Blocks

#E10920 - \$19.97*CAD / \$16.97USD

200 foam pieces with magnet on one side. These are not as thick as the plastic or wooden pattern blocks. Comes in 6 shapes and colours.

Enhanced Points of Departure with Pattern Blocks

#E20800 - \$5.97CAD / \$5.17USD

Don't know where to start with using pattern blocks? This 22 page full colour booklet will give you lots of ideas for exploration. The hands-on student investigations will foster deeper insights into geometry, numeration, and measurement. Each small group activity uses one shared set of pattern blocks and is designed for students to discuss observations and results.

Pattern Block Cards

#E10906 - \$13.47*CAD / \$11.47USD

Set of 20 full colour exploration cards for use with pattern blocks. Each card contains a picture to be reproduced using blocks and is labelled as an object, animal, fruit, etc. These can be used to aid in teaching how different shapes, when used together, can create geometric shapes and patterns.

TANGRAMS

Using Tangrams develops thinking and visual skills. Tangrams is a puzzle game that makes problem-solving fun! The basic object of the game is to construct objects, figures, or shapes using the seven tans (pieces).

Tangrams #E11172 - \$0.97*CAD / \$0.97USD per set
Brightly coloured, 7-piece plastic geometric puzzles.

Enhanced Points of Departure with Tangrams

#E20811 - \$5.97CAD / \$5.17USD

Need some ideas for introducing tangrams? This 22 page full colour booklet will give you lots of ideas for exploration. The hands-on student investigations are sure to assist. Each small group activity uses one shared set of tangrams and is designed for students to discuss observations and results.

Tangrams: 330 Puzzles

#D404 - \$9.97CAD / \$7.97USD

This collection gathers together nearly 330 tangrams, the best creations of both Chinese and Occidental puzzle devisers. Included are puzzles carefully selected from rare 19th-century books. Tangrams range from the relatively easy to the difficult. (Tangram pictures are not full size)

INTERLINKING CUBES

Hex-A-Link Cubes

#E131 - \$11.97*CAD / \$10.27USD

100 - 2cm plastic linking cubes - 10 each of 10 colours, linkable on all six sides. These are indispensable for teaching a wide

range of math concepts to hands on and visual learners. Develop observation and memory skills. Great also for their play value. Previously called Cube-a-Link Cubes.

Enhanced Points of Departure with Interlinking Cubes

#E20802 - \$4.97CAD / \$4.47USD

This 27 page full colour booklet will give you lots of ideas for exploring measurement, patterns, geometry and more using interlinking cubes. Each small group hands-on student activity uses one shared set of linking cubes and is designed for students to discuss observations and results.

Linking Metric Cubes

1000 Cubes . #E132 - \$42.97*CAD / \$36.57USD

500 Cubes . . #E132B - \$22.97*CAD / \$19.57USD

These 1cm/1gm cubes in ten colours are perfect for a variety of metric, mathematical, and scientific applications. Each cube displaces 1 cubic centimetre of water. Use them for volume, mass and linear measurement. The cubes link on all six sides.

SPUNKY MATH

Use these consumable, simple, and uncluttered math workbooks on their own or as extra practice work with another program such as Professor B Mathematics. As with the Prof. B approach, your child gains a solid foundation of each new concept before moving on, without being inundated and confused with yet more. Each grade level has two – 200 page consumable workbooks. In each your child will learn the usual adding, subtracting, filling in missing numbers, counting money, skip counting and more. These are great books that will give your child a solid foundation.

STUDY TIME MATH

Study Time Arithmetic is designed:

• **to allow children to learn and appreciate numbers and math concepts** as they were ordered by the Creator and how they relate and apply to everyday life.

Rather than story problems about a day at the circus or the batting average of professional baseball players, the material is based on unit themes such as "On the Farm," "About the House," and "In the Shop" at each grade level.

Additional themes include nature topics, world continents, inventions and inventors, & Biblical topics.

• **to be teacher/parent friendly.** Lesson introduction takes minimum time.

• **to be student friendly.** New concepts are introduced gradually and reviewed constantly. Special features are included to intrigue, challenge, and motivate students to learn and discover on their own as much as possible. Focuses on practical applications and teaches metric and standard measurements.

Study Time Arithmetic is a **traditional, graded, textbook style, spiral review program**. It is similar to Climbing to Good English in design, look, and approach. Follows Spunky Math.

Single use workbooks are paperback, black and white format. Teacher Manuals (except Gr. 3) are hardcover. For Grades 6 to 8 the Student Books are hardcover.

★ STRAYER-UPTON PRACTICAL ARITHMETIC

See Strayer.UniqueMath.com for more details.

Strayer Upton Practical Arithmetic

- is written for children in familiar language
- provides problems related to the life and interests of the students.
- explains why the topic being presented is important and how it is used in life.
- provides instruction in problem solving.
- drills on all the fundamental number combinations.

Strayer-Upton Practical Arithmetic is a three book series that covers from 3rd to 8th grade mathematics. Each 500+ page, palm-sized (5"x7"x1.5") hardcover book includes two years of instruction. All instruction, exercises, problems, and tests are provided sequentially. Students work independently through each book.

This economical series was designed to give a child the ability to compute easily and accurately. It focuses on teaching the student how to interpret and solve situations involving numbers in everyday life. With lots of practice on each gradually introduced concept, the student builds confidence as mastery leads to success. This curriculum is designed in such a way that the student is successful with the current concept before moving on.

Written originally in the 1930's, it reflects the monetary values of the day. For instance, cupcakes cost 3 cents each, a dozen eggs is 34 cents, and a loaf of bread is 9 cents. There are also reviews of various technologies such as the telegraph and electric calculating machine and a variety of important industries from the 1930's. The historical perspective in no way takes away from the concepts and principles being taught.

MATHEMATICAL REASONING*By Critical Thinking Press***★ Mathematical Reasoning™**

Forget boring math lessons and dreaded drill sheets. These books use engaging lessons with easy-to-follow explanations, examples, and charts to make mathematical concepts easy to understand. Use as primary textbooks or comprehensive workbooks alongside another curriculum to teach the grade level math skills and concepts students are expected to know.

Every lesson is followed with a variety of fun, colourful activities to ensure concept mastery. The lessons and activities spiral slowly, allowing students to become comfortable with concepts, but also challenging them to continue building their problem-solving skills. These books teach more than mathematical concepts; they teach mathematical reasoning, so students learn to devise different strategies to solve a wide variety of math problems. All books are written to the standards of the National Council of Teachers of Mathematics.

Mathematical Reasoning™ Supplement books reinforce math concepts and skills by asking students to apply these skills and concepts to non-routine problems. These user-friendly, engaging books are made up of 50 theme-based collections of problems, conveniently grouped in self-contained, double-sided activity sheets that provide space for student work. Each collection contains relevant math facts at the end of the worksheet in case students need hints to solve the problems. **Reproducible.** Answers included.

Math Detective prepares your students for advanced math courses and tests that measure reasoning, reading comprehension, and writing in math.

Students read a short story that includes a chart, table, or graph. Next they answer critical thinking questions to improve their understanding of the math concept and develop their critical thinking (comprehension) skills. Students can not just scan the story for answers - they must carefully analyse and synthesize the information from the text and the chart, table, or graph to explain and support their answers.

Stories are age-relevant, high-interest, and show how math is integral to everyday activities. Includes general and student introductions, a lesson that explains the concept of evidence, a chart of Topics and Key Ideas to help select activities, and detailed answers.

PROFESSOR B MATHEMATICS

For detailed information about this curriculum, visit <http://www.ProfessorB.UniqueMath.com>

Unleash the awesome power of your children's "fearfully and wonderfully made" mental computers.

So, You Want To...

- rescue your children from fear and failure in math?
- provide explanations which actually make sense?
- eliminate excessive memorization/rote learning?
- show them how to use their minds to learn concepts & skills?
- understand how to activate the same process for learning mathematics that children use to learn stories and one's native language?
- use internationally recognized methods?
- stimulate and activate your children's natural capacities for mastery of mathematics?

Why have your child take eight years to complete K to 7th grade math when they need only THREE or FOUR years?

Professor B Math:

- stimulates and activates children's natural capacities for mastery of mathematics
- ensures a huge reduction of mental tension
- teaches math as a contextual story that makes sense
- enables rapid and thorough understanding
- eliminates remediation and rote learning
- allows sustained mastery of skills
- uses "mental gymnastics" games and fingers as manipulatives
- allows children to progress at their own speed - as quickly or slowly as needed
- easy to use - virtually no teacher preparation time needed

FOUNDATIONS: Professor B Math is founded on Biblical principles. It does not, however, refer to Scripture or Biblical principles directly.

TELLS THE TRUTH simply in all arithmetic computations without confusing, often time consuming and meaningless steps of procedure and terminology.

COST EFFECTIVE:

Well documented studies around the world have proven the effectiveness of PBM. It condenses the arithmetical content traditionally spread over 7 to 8 years of expensive textbook and workbook materials into three texts, three workbooks, and a charts book.

CONSIDER THESE POINTS:

- Each child is "fearfully and wonderfully made" with mental computers of awesome power.
- Just as one's brain was designed by our Lord to assimilate and retain the content of a story, it will similarly retain the content of arithmetic if it is presented as a contextual, developmental flow (a continuing story).
- Arithmetic can be presented as a sequence of developmental steps on a ladder where mastery at previous rungs provides readiness for the next connection.
- Arithmetic can be effectively taught as an upward, progressive climbing of the ladder without gaps rather than as spiral review.
- Facilitating children's mastery of arithmetic is incredibly simpler when approached from the perspective of the Lord's wisdom, order, and design.
- "Master 'seventh grade math' by third to fourth grade. Because our methods activate the same gifts children have used for learning and retaining stories, learning math at this accelerated pace (by means of connections and truth-telling) is incredibly easier than the snail's pace of 'slow motion math' (with its disconnections and untruths)."

WHERE TO START: Students just beginning math will start with Level 1. Older students weak in addition/subtraction skills might benefit from a quick review of Level 1 so that they can "unlearn" improper or faulty ways of approaching math.

PLACEMENT TEST: Request a placement test to determine if an older child could skip Level 1 and go directly to Level 2. This test is available online at <http://www.professorbmath.joycenter.on.ca/>

GEOMETRY: Professor B Math does not cover geometry. For an excellent highschool level geometry program we recommend **Life of Fred Geometry**.

VISUAL AND HANDS ON LEARNERS:

Professor B teaches to all learning styles but does not use manipulatives. If you have a child who is a strong hands-on or visual learner, it is very easy to adapt the program to use manipulatives. We particularly recommend the Hex-A-Links Cubes, Beginner Counting Set & Base Ten Blocks. **See our Math Manipulatives** section.

Rounding out the Mathematical experience:

To introduce additional concepts not covered in Professor B Mathematics, see the graded recommendations lists in this catalogue. The recommended resources will help you to cover telling time, money, geometry, pre-algebra concepts, graphing, drawing pictures to illustrate problem solving, and more.

PROFESSOR B MATH - MATHEMATICS

BOARD OF EDUCATION STANDARDS:

Professor B Mathematics is an ungraded program and because of the way it is structured, you will not follow a traditional track in teaching math. For instance, typical standards have a child into about grade four or five before they use figures in the trillions. Prof. B Level 1 has a kindergarten child reading numbers in the trillions and a second grader can be adding/subtracting numbers in the trillions. We expect a child to actually learn how to perform computations and not rely on calculators as most curriculums teach reliance on! Upon completion of Prof. B Level 3, a child will have more than met the requirements of any provincial or state standards for a seventh grade level in the understanding of addition, subtraction, multiplication, division, fractions, decimals, percentages, prime factorization, and least and highest common factors. Even if you take 1½ to 2 years per level (10 months is the recommended time frame), starting in kindergarten or grade one, the child will be well underway to completing highschool algebra with Professor B Algebra before finishing grade seven!

PROFESSOR B MATHEMATICS

restructures the traditionally disconnected, fragmented content of arithmetic and informs parents how to consistently tell the truth simply in all the operations on whole numbers, fractions and decimals from basic to advanced levels of skill.

PROFESSOR B MATHEMATICS POWER LEARNING FOR CHILDREN

• **3 Textbooks** for use by the instructor each have 150 to 160 pages. They contain clear, easy to follow instructions for presenting every lesson and concept. No teacher preparation is needed other than to glance over the lesson before you start. Even older children can teach younger children using these texts.

• **Workbooks:** offer many unique practice exercises that make it possible for children to achieve the mastery which represents readiness for the next level. No endless pages of the same question. 131 to 144 pages each. **Purchase one workbook of each level per child. They are NOT reproducible.**

• **Charts Book:** contains detailed instructions for speed practice, very quickly learning to count from one to one hundred and beyond; doubling numbers mentally; acquiring strong skills in column addition; and maintaining mastery of the multiplication facts. Required and indispensable for teaching curriculum.

MATHEMATICS - PROFESSOR B MATH

Upon completion of Level 3:

- proceed to either Professor B Algebra - OR -
- Life of Fred Fractions (much more than fractions!)

You can use Life of Fred Fractions alongside of Professor B Level 3.

PROFESSOR B TRAINING DVDs

Professor Barrett will personally teach you with these videos. His instructions will give you confidence that, YES, you can do it, no matter how you learn best! Each video gives a step-by-step tutorial for using this excellent curriculum. Older children would also benefit from the videos. They DO NOT replace the Texts that must be used with the Power Learning format. They also provide additional teaching ideas.

GRATEFUL, SATISFIED CUSTOMERS SAY:

"I just wanted to write and express my appreciation for the Professor B Math materials. It has been an answer to my prayer. I like the simple, logical, progression it takes the learners through. . . My oldest daughter, who is behind in math, is catching up nicely."

M. Stewart

"The Professor B Math is proving to be fun for the boys and my oldest is finally revealing that he never really understood the simplest of addition and subtraction."

S. Kowal

"Since using Prof. B Math, I have gained more confidence and enjoyment in working with both my own children (from K to highschool algebra), as well as with other students needing remediation. Prof. B has a unique and efficient method for teaching both facts and concepts which includes the use of his clever Power Learning Charts. I have also found it inspiring to see Prof. B, the master teacher, in action on his videos. Highly recommended!"

Esther Greenfield, XYZ Tutoring, Consulting

Professor B Testimonial:

I would strongly recommend Prof. B Math to anyone. This curriculum is very well planned and organized. In fact, I wish I had been taught math this way!...I like the clutter-free black and white workbooks very much...no distractions. The text, explains how to present the different topics so that anyone who is not a math expert can teach the course. Although this program is teacher-lead, you can just open the book and teach, although I usually take 5 minutes or so to peruse it beforehand. Also, we have found the emphasis on oral work very beneficial as my children have difficulty with orienting numbers and letters. My husband and I are so glad, we feel like we have saved a bundle of money as well as a lot of time and frustration.

Linda Danner, mathematician

PROFESSOR B POWER ALGEBRA

Pre-algebra, Algebra I and Algebra II

Professor B methodology carefully nurtures children's perception of connection and flow in arithmetic so they experience enjoyment and mastery of math content. To nurture learners' perception of connection and flow, Professor B Algebra integrates Pre- algebra, Algebra I and Algebra II into a single, ungraded curriculum. Each concept is covered thoroughly, with clarity.

The objective of the three Professor B Algebra books is to make it possible for the vast majority of teachers and parents to competently (and rather comfortably) insure their learners' total mastery of elementary and intermediate algebra. You mothers and fathers who never dared to consider it possible to comfortably teach your children algebra, will now be most pleasantly surprised with your ability to mathematically empower them! These textbooks have been carefully written so that the vast majority of adults, regardless of their math backgrounds, can read them and derive all the algebraic meanings we intend. We make the connections crystal clear. Answers are included.

Three books cover highschool algebra and can usually be completed in 2 - 3 years, even by children as young as 9 who have completed Prof. B Level 3.

The textbooks can be used as a textbook and student writes answers in a notebook, or can be used as a consumable workbook. (Paperback, 400+ pages each)

LIFE OF FRED MATH

For detailed information about this curriculum, visit <http://www.LifeofFred.UniqueMath.com>

So, you think math is boring and there is nothing much anyone can do to make it "un-boring"? You think the average person can't really ever understand math, and "Who needs it?" if you have a calculator in hand! Think Again!!

Never again hear the question which many math students have: "When are we ever gonna use this stuff?" Or, "Math is boring!"

No other textbooks are like these. Each text is written in the style of a novel with a humorous story line. Each section tells part of the life of Fred Gauss and how, in the course of his life, he encounters the need for the math and then learns the methods. Tons of solved examples. Each hardcover textbook contains ALL of the material – more than most instructors cover in traditional classroom settings. Includes tons of proofs.

Written by Dr. Stanley Schmidt with the intent to make math come alive with lots of humour, clear explanations, and silly illustrations that stick in the mind. The student will learn to think mathematically.

Completion of this series prepares student for third year college math.

IMPORTANT NOTE:

Designed to make your child **THINK!** and to learn on their own. It does not give step-by-step directions and answers to every question. They learn to apply to current questions the concepts previously taught. Upon completion they will understand how math works, why it works, and how to apply it. They will know the formulas and how to apply them in real-life situations, not just situations created for a textbook. This program relies heavily on reading comprehension and thinking, not rote spoon-fed learning that is quickly forgotten. Parents can learn these novel methods along with the student, but should not try to integrate the traditional rote/memorization methods.

Books in Kits are also Available for Individual Purchase

Descriptions of each book follow the listing of "Sets."

Let FRED make math meaningful to everyday life in a fun, creative and thorough manner. It is like no other math curriculum you have ever seen!

Check out the Life of Fred Language Arts Series also in this catalogue.

Complete Elementary Life of Fred Set

#LOFMEK - \$199.97CAD / \$159.97USD

Want to purchase all of the elementary books all at once? Purchase this kit and you will have all 10 books that will prepare your student for Life of Fred Fractions or any other 5th grade program.

Life of Fred Elementary Set 1

#LOFMEK1 - \$79.97CAD / \$63.97USD

Any child who can count up to 10 and knows how to add and subtract to 10 is ready to start Life of Fred Apples. This set includes:

- Life of Fred: Apples
- Life of Fred: Butterflies
- Life of Fred: Cats
- Life of Fred: Dogs

Life of Fred Elementary Set 2

#LOFMEK2 - \$79.97CAD / \$63.97USD

For students who have finished Life of Fred Dogs or are in 4th grade and have a solid foundation in addition and subtraction. This set includes:

- Life of Fred: Edgewood
- Life of Fred: Farming
- Life of Fred: Goldfish
- Life of Fred: Honey

Life of Fred Elementary Set 3

#LOFMEK3 - \$39.97CAD / \$31.97USD

For students who have finished Life of Fred Honey. If just getting started with Life of Fred, students should complete Goldfish and Honey to lay foundations before starting Ice Cream. This final elementary set includes:

- Life of Fred: Ice Cream
- Life of Fred: Jelly Bean

Life of Fred Intermediate Set

#LOFMIK - \$59.97CAD / \$47.97USD

Life of Fred Intermediate is specially designed for students who are not yet 10 years of age but have finished the Elementary Series. This series is also excellent for those who are in 5th or 6th Grade who are struggling with math or are switching from any other math curriculum. This set includes:

- Life of Fred: Kidneys
- Life of Fred: Liver
- Life of Fred: Mineshaft

Complete Upper Level Life of Fred Set

#LOFCS - \$749.97CAD / \$603.97USD

Want to purchase all of the upper level Life of Fred Math Books at once? Purchase this kit and you will have all the currently available books from Fractions to Real Analysis. Purchase 5th through College all at once with this kit OR purchase pre-algebra, high-school, and college sets separately (see next page).

MATHEMATICS - LIFE OF FRED

Life of Fred Pre-Algebra Set

#LOFPAK - \$154.97CAD / \$124.97USD

This set can be started with any child who can add and subtract well and knows how to do long multiplication and division. This set would be considered a middle school math program, for students in 5th through 9th grades. When they are finished these books, they are ready to begin the High School Set. Many high school aged students would benefit by going quickly through these books to lay foundations that they might have missed. This set includes:

- Life of Fred: Fractions
- Life of Fred: Decimals and Percents
- Life of Fred: Pre-Algebra 0 with Physics
- Life of Fred: Pre-Algebra 1 with Biology
- Life of Fred: Pre-Algebra 2 with Economics

★ Life of Fred Pre-Algebra Zillions Set

#LOFPAZK - \$70.47CAD / \$56.97USD

These practice books are helpful for students who need extra practice and for younger students who you are not wanting to rush into high school level math. They are also excellent if you are needing to assign a grade as the “mixed bag” questions can be used as tests. The books in the Life of Fred Pre-Algebra Set are required to effectively use these books.

- Zillions of Practice Problems Fractions
- Zillions of Practice Problems Decimals and Percents
- Zillions of Practice Problems Pre-Alg. 0 with Physics

Life of Fred High School Set 1

#LOFHSK1 - \$168.97CAD / \$135.97USD

This set can be started with any student who has completed the Life of Fred Pre-Algebra Set or a Pre-Algebra program in another curriculum. This set covers all of Algebra. After completing this set, the student is ready to go into the High School Set 2. This set includes:

- Life of Fred: Beginning Algebra Expanded
- Life of Fred: Zillions of Practice Problems for Beginning Algebra
- Life of Fred: Advanced Algebra Expanded
- Life of Fred: Zillions of Practice Problems for Advanced Algebra

Life of Fred High School Set 2

#LOFHSK2 - \$96.97CAD / \$77.97USD

This set can be started with any student who has completed the Life of Fred High School Set 1 or algebra 2 in another curriculum. After completing this set, the student is ready to go into the College Set. This set includes:

- Life of Fred: Geometry Expanded
- Life of Fred: Trigonometry Expanded

Life of Fred College Set 1

#LOFCK1 - \$121.97CAD / \$97.97USD

These college level books are just waiting for you to tackle them. This set includes:

- Life of Fred: Calculus Expanded
- Life of Fred: Statistics Expanded

Life of Fred College Set 2

#LOFCK2 - \$136.97CAD / \$109.97USD

These upper level college books are just waiting for you to tackle them. This set includes:

- Life of Fred: Linear Algebra Expanded
- Life of Fred: Five Days
- Life of Fred: Real Analysis

LIFE OF FRED ELEMENTARY BOOKS

1st to 4th Grades

Life of Fred: Apples

#LOFMA - \$21.47CAD / \$16.97USD

Numbers that Add to 7; Circles; Ellipses; Reading 6:00 on a Clock; $5 + ? = 7$; Days of the Week; Leap Years; Spelling February; 15 Degrees Below Zero (-15°); Counting by Fives; $3x + 4x = 7x$; ante meridiem (a.m.); One Million; Squares; The “There Are Zero . . .” Game; Sets; The Popularity of Zero; Triangles; ? (not equal); $x + 4 = 7$; One Thousand; Counting by Hundreds; Reading 3:05 on a Clock; Rectangles; and much more.

Life of Fred: Butterflies

#LOFMB - \$21.47CAD / \$16.97USD

One Yard = 3 Feet; Numbers that Add to 9; Counting by twos; Reading 5:10 on a Clock; Braces, Parentheses and Brackets; Why Not Every Three Stars Can Make a Triangle; Collinear; Reading 5:55 on a Clock; Ordinal Numbers; Yurts; Half Past Six; a Dozen; Perpendicular; p.m. (post meridiem); Syncope; A Baker’s Dozen; Whole Numbers; Cardinal Numbers; Trillion, Quadrillion and Quintillion; and much more

Life of Fred: Cats

#LOFMC - \$21.47CAD / \$16.97USD

Commutative; Cardinality of a Set; One Quarter; Numerals vs. Numbers; Counting by Threes; Finding Patterns; Right Angles; a Quarter to Three; 5280 Feet in a Mile; Numbers Expressed as Hundreds, Tens and Ones; Sexagesimal and Decimal Systems; Numbers that Add to 13; Centuries, Centenarians, and Centurions; Square Feet; Volume; One Meter; the Three Countries of the World that Don’t Primarily Use the Metric System; What Mathematicians Do; Prime Numbers; Less Than (<); and much more . . .

LIFE OF FRED - MATHEMATICS

Life of Fred: Dogs

#LOFMD - \$21.47CAD / \$16.97USD

One Million; the Game of Doubles; Fortnite; Digits in a Number; Two Dimes = 20 Cents; Doubling $1 \rightarrow 2 \rightarrow 4 \rightarrow$ up to 1,267,650,600,228,229,401,496,703,205,376 (which is 100 doubles); $7 - z = 4$; Functions; The Function Party Game; One Billion; Finding Patterns; Consecutive Even Numbers; Numbers that Add to 15; Guessing Functions; Right Angles; Rectangles; Constant Functions; Numbers that Add to 17; Bar Graphs; Adding two- and three-digit numbers; Carrying the One in Addition; and much more.

Life of Fred: Edgewood

#LOFME - \$21.47CAD / \$16.97USD

Concurrent Lines; Parallel Lines; Trapezoids; Right Angles; Functions; Rhombuses; Constant Functions; Median Average; Writing Larger Numbers with Commas; Using Logarithms to Solve $2x = 5$; Birdie Rule for Logarithms; Finding Approximate values for $\log 5$ on a Calculator; Bar Graphs; Greater Than $>$; Numbers that Add to 8, 10, and 12; State Income Tax Rates as Percents; Parallelograms; Rows and Columns of a Matrix; Quarter of an Hour; Half Dozen; The Addition Game Using Playing Cards; Playing Guess-A - Function; Six Examples of Functions: Add, Subtract, Multiply, Divide, Tangent, and Derivative; What It Means to Matriculate; and much more.

Life of Fred: Farming

#LOFMF - \$21.47CAD / \$16.97USD

Adding to 14; Googol; Percents; Adding to 16; Rows of a Matrix; Median Average; Union of Sets; All of Mathematics Generated by the Empty Set; Proof that the Set of Everything (the Universal Set) Cannot Exist; Cardinality of a Set; Collinear Points; Numbers vs. Numerals; Borrowing One in Subtraction; Definition of Function; Domain and Codomain; Radius and Ulna; Dollars in Different Denominations; and much more.

Life of Fred: Goldfish

#LOFMG - \$21.47CAD / \$16.97USD

Drawing Things to Scale; Digits in a Number; the Whole Point of Math; Polygons; Sequences; Definition of an Acre; Meters vs. Yards; Kilograms vs. Pounds; Area of a Rectangle; Cubic Feet into Gallons; Gallons of Water into Pounds; Multiplying by Ten, Hundred, and Thousand; One Ton = 2000 lbs.; Decimal Point; Estimating Sums; Practising the Metric System with Dental Floss; Bar Graphs; and much more.

Life of Fred: Honey

#LOFMH - \$21.47CAD / \$16.97USD

Commutative Law of Multiplication; Closed Under Addition; Quarter of an Hour; Cardinal Numbers; $d = rt$; One Trillion; Exponents; $1\frac{1}{2} + 1\frac{1}{2}$; Is This a Function?; Long Division; Fractions; Remainders; Dividing 56382 by 3; Changing 82614 feet into Yards; Three Reasons to Learn Long Division (Even Though Calculators Exist); 36 Quarters Equals How Many Dollars?; The Four Times Table; A Disadvantage to Being Married to a Calculator; The Guess-a-Function Game; Hexagons and Octagons; The Big Question in Arithmetic—Do I Add, Subtract, Multiply, or Divide?; Division by Two-digit Numbers; $7xyz + 8xyz$; Slope of a Line.

Life of Fred: Ice Cream

#LOFMI - \$21.47CAD / \$16.97USD

The Big Question in Arithmetic; Multiplying Two-digit Numbers; A Pound of Hamburger Weighs More Than a Pound of Gold; The Last Ten Multiplication Facts; How to Remember $7 \times 8 = 56$; Sigma Notation; Subtracting 12 oz. from 15 lbs.; Bar Graphs; Ordered Pairs; Elapsed Time; First and Second Coordinates; Why Algebra Does Not Use the Times Sign (\times); The Cardinality of the Set of All Ice Cream Flavors that Begin with the Letter Alpha; Minutes and Hours in the Metric System; Plotting Points on a Graph; Perimeter; The One Reason for Mathematics; Hooke's Law; Slope of a Line; Estimating Using Graphs; Changing the Scale on a Graph; Counting Back Change; The Commutativity of Set Union; Less Than ($<$) and Greater Than ($>$); Area of a Rectangle.; and much more.

Life of Fred: Jelly Beans

#LOFMJ - \$21.47CAD / \$16.97USD

Finding One-third of a Number; Using Fisher's Exact test; Prime Numbers; Fibonacci Numbers; Casting Out Nines; Seven to the One-thousandth Power in Three Steps; Intersection of Sets; Commutativity of Intersection; Decimal Points; Adding Decimals; Logs; Median Averages; Mean Averages; Exponents; Set Subtraction; Reducing Fractions; Milli- and Kilo-; Tally Marks; Pie Charts; Mode Average; Subtracting Three Inches from Three Miles, and much more.

NOTE: FRED teaches much more than math and language arts. He introduces important life lessons to discuss as a family.

MATHEMATICS - LIFE OF FRED

LIFE OF FRED INTERMEDIATE BOOKS

4th to 6th Grades

Life of Fred: Kidneys

#LOFMK - \$21.47CAD / \$16.97USD

Millilitres; Writing Numerals in Checks (\$4000 and Not \$40.00); Word Problems in Arithmetic; 100%; Grams Vs. Ounces; Functions; Images of Elements of the Domain; Volumes; 115 Ounces = 7 Pounds and 3 Ounces; Perimeters; Definition of an Acre; The Calculus Definition of Limit; Scores, Dozens, and Braces; Polar Form of Complex Numbers; Exponents; The Five Different Solutions to $X^5 = 32$; A Quarter after Two; Point-Segment-Square-Cube-Tesseract; Twelve Kinds of Set Theory; Arithmetic Sequences and Series; Preview of the Fundamental Theorem of Calculus; Sigma Notation; Descartes' Analytic Geometry

Life of Fred: Liver

#LOFML - \$21.47CAD / \$16.97USD

$1/4 + 1/4 + 1/4 = 3/4$; Elapsed Time; The Three Angles of a Triangle Always Add to 180° ; The Pythagorean Theorem; Finding Two-fifths of \$400,000; Solving $2x - 7 = 11$; Pie Charts; Six-sevenths of 413; Short Division; Quotients; Secant Lines; Changing Percents to Fractions; 68 Completely Worked out Examples; Computing 2% of 550; Functions, Domains, and Codomains; Reducing Fractions; Finding an Average.

Life of Fred: Mineshaft

#LOFMM - \$21.47CAD / \$16.97USD

Milligrams and Pounds; Rounding Numbers; Three-eighths of 19,416; Is a Quart less than (<) a Duck?; Six Is What Fraction of 24?; Post Meridiem; Exponents; Extending the Domain of a Function; Perpendicular Lines; Diminutives; Rhombus; Can a Four-sided Figure Have Exactly Three Right Angles?; Cardinality of Sets; Sectors; Inverse Operations; The Largest Cardinal Number Isn't Six; Ounces, Gills, and Pints; 30% of 270; Division by 100; Subtracting 3 oz. From 4 lbs. 2 oz.; Subtracting 7 Minutes 25 Seconds from 20 Minutes 10 Seconds; Subtracting 2 Gallons 1 Quart from 4 Gallons; Chords of a Circle; Three Definitions of Diameter; Subtracting 40 Feet from 9 Miles; Fahrenheit to Celsius Conversions; Does $x < y$ imply $y > x$?; Converting 39 Inches into Feet; Finding the Sale Price after Taking 40% Off; The Image of an Element in the Domain of a Function; $63^\circ\text{F} = 17\ 2/9^\circ\text{C}$

LIFE OF FRED MIDDLE SCHOOL / PRE-ALGEBRA BOOKS

5th to 8th Grades

Life of Fred: Fractions (Plus Pre-Algebra & more)

#LOFF - \$24.97CAD / \$19.97USD

After you know your addition and multiplication tables, you are ready for Life of Fred: Fractions. It covers the first part of beginning pre-algebra including: Cardinal and ordinal numbers, Diameter and Radius, Everything about Fractions, Roman Numerals, Lines of Symmetry, Division by Zero, Circumference, Mixed Numbers, Commutative Law, Functions and Inverse Functions, Unit Analysis, Beginning Geometry and much more.

★ Life of Fred: Zillions of Practice Problems for Fractions

#LOFFZ - \$24.97CAD / \$19.97USD

Need more practice with fractions? This book is the companion to Life of Fred: Fractions and has hundreds of new problems organized according to the chapters of Life of Fred: Fractions. These problems contain lots of tiny stories about Fred and his friends, Joe and Darlene. All problems are worked out with complete solutions and answers...except for one!

Life of Fred: Decimals and Percents

#LOFDP - \$24.97CAD / \$19.97USD

This book covers the second part of pre-algebra including: Number Systems, Pi, Sets, Ordered Pairs, Why Set Theory is the Basis for Arithmetic, Rounding, Everything about Decimals, Two Definitions of Function, Rules of Divisibility, Bar Graphs, Two Conjectures of Goldbach, Pie Charts, Everything about Percents, Ratios, Graphing, and Probability. And much more. Answers included. (Pre-Algebra & more)

★ Life of Fred: Zillions of Practice Problems for Decimals and Percents

#LOFDPZ - \$24.97CAD / \$19.97USD

Need more practice with decimals and percents? This book is the companion to Life of Fred: Decimals and Percents and has hundreds of new problems organized according to the chapters of Life of Fred: Decimals and Percents.. These problems contain lots of tiny stories about Fred and his friends, Joe and Darlene. All problems are worked out with complete solutions and answers.

LIFE OF FRED - MATHEMATICS

Life of Fred: Pre-Algebra 0 with Physics

#LOFPHY - \$37.47CAD / \$29.97USD

In most educational systems, physics is often taught in the twelfth grade. Valuable learning time is lost waiting that long. This book fills a big gap. This book covers: Numerals, Making models, Area of a rectangle, Friction independent of speed, Constants of Proportionality, Exact speed of light, Continuous and discrete variables, Pendulums, Square roots, Normal forces, Coefficient of friction, Solving $d = rt$ for r , Graphing points, and much more

★ Life of Fred: Zillions of Practice Problems for Pre-Algebra 0 with Physics

#LOFPHYZ - \$24.97CAD / \$19.97USD

Need more practice with physics? This book is the companion to Life of Fred: Pre-Algebra 0 with Physics and has hundreds of new problems organized according to the corresponding chapters. All problems are worked out with complete solutions and answers.

Life of Fred: PreAlgebra 1 with Biology

#LOFBIO - \$37.47CAD / \$29.97USD

Definition of Life, Sets, Fractions, Germination of Seeds, Area of a Rectangle, Volume of a Cube, Ordinal Numbers, Diameter and Circumference of a Circle, Four Ways Plants Make New Plants, $d = rt$, the Five Kingdoms, Phyla, Classes, Orders, Families, Genera, Species, Your Brain, Conversion Factors, Where the Non-Water Mass of a Plant Comes From—Plants Don't Eat Dirt. And much, much more

Life of Fred: PreAlgebra 2 with Economics

#LOFEC - \$37.47CAD / \$29.97USD

Domain and codomain of a function, Conversion factors, Steps in Solving Word Problems, One-to-one Functions, Unit Analysis, Key to a Successful Business, Five Qualities that Money Should Have, Definitions of Capitalism, Socialism, and Communism, Payday Loans, Partnerships, Cardinality of a Set, Four Ways to Kill Competition, Freedom vs. Liberty, Tariffs, Demand Curves, Venn Diagrams, Ricardo's Law of Comparative Advantage. Young people need this!

LIFE OF FRED HIGH SCHOOL BOOKS

9th to 12th Grades

Life of Fred: Beginning Algebra Expanded

#LOFBA - \$49.97CAD / \$39.97USD

Covers all of beginning algebra including: Numbers, Integers, Equations, Motion & Mixture, Two Unknowns, Exponents, Factoring, Fractions, Square Roots, Quadratic Equations, Functions & Slope, Inequalities & Absolute Value.

Life of Fred: Zillions of Practice Problems for Beginning Algebra

#LOFBAZ - \$37.47CAD / \$29.97USD

This optional book contains practice questions keyed directly to the chapters and topics of Life of Fred: Beginning Algebra. The answer to every problem is worked out in complete detail. In this book you will find: 11 mixture word problems are each worked out step by step, often using a whole page of explanation for each problem; 13 quadratic equations solved by completing the square; 13 examples of two equations with two unknowns solved by the elimination method.

Life of Fred: Advanced Algebra Expanded

#LOFAA - \$49.97CAD / \$39.97USD

Covers all of advanced algebra including: Ratio, Proportion & Variation, Radicals, Logarithms, Graphing, Systems of Equations, Conics, Functions, Linear Programming, Partial Fractions, Math Induction, Sequences, Series, Matrices, Permutations & Combinations, and more.

Life of Fred: Zillions of Practice Problems for Advanced Algebra

#LOFAAZ - \$37.47CAD / \$29.97USD

This optional book contains practice questions keyed directly to Life of Fred Adv. Algebra. Each problem is worked out in complete detail. In this book you will find: 10 exponential equations worked out step by step; over 40 problems dealing with functions; 16 imaginary number problems solved in detail; 11 linear programming problems — each taking about a page to solve, and a bonus six-page introduction to Turing Machines.

Life of Fred: Geometry Expanded

#LOFG - \$49.97CAD / \$39.97USD

All of geometry including: Points and Lines, Angles, Triangles, Parallel Lines, Perpendicular Lines, Quadrilaterals, Area, Similar Triangles, Symbolic Logic, Right Triangles, Circles, Constructions (46 of them!) Non-Euclidean Geometry, Solid Geometry, Geometry in Four Dimensions, Coordinate Geometry, Flawless (Modern) Geometry with lots of proofs and much more.

Life of Fred: Trigonometry Expanded

#LOFT - \$49.97CAD / \$39.97USD

All of trigonometry including. . . Sines, Cosines and Tangents, Graphing, Significant Digits, Trig Functions of Any Angle, Factoring, Trig Identities, Graphing $y = a \sin(bx + c)$, Radian Measurement, Conditional Trig Equations, Functions of Two Angles, Oblique Triangles, Inverse Trig Functions, Polar Coordinates, Polar Form of Complex Numbers, and more. It includes a preview of all of Calculus and can be considered a pre-calculus program.

MATHEMATICS - LIFE OF FRED

LIFE OF FRED COLLEGE/UNIVERSITY LEVEL BOOKS

Life of Fred: Calculus Expanded

#LOFC - \$62.47CAD / \$49.97USD

All 15 or 16 units of college calculus including. . . Functions, Limits, Speed, Slope, Derivatives, Concavity, Trig, Related Rates, Curvature, Integrals, Area, Work, Centroids, Logs, Conics, Infinite Series, Solids of Revolution, Polar Coordinates, Hyperbolic Trig, Vectors, Partial Derivatives, Double Integrals, Vector Calculus, Differential Equations. And much more. . .

Life of Fred: Statistics Expanded

#LOFS - \$62.47CAD / \$49.97USD

More statistics than is usually taught in a college course. Descriptive statistics (averages, measures of dispersion, types of distributions), Probability, Bayes' Theorem, From a Given Population Determine What Samples Will Look Like (7 tests), Techniques of Sampling, From a Given Sample Determine What the Population Was (14 tests), Determine Whether Two Given Samples Came From the Same Population (15 tests), Working With Three or More Samples (10 tests), Emergency Statistics Guide, Regression Equations, Field Guide, 16 Tables and much more...

Life of Fred: Linear Algebra Expanded

#LOFLA - \$66.47CAD / \$52.97USD

(a math course required by most colleges for math majors--upper division level course) Solving systems of equations with one, many, and no solutions. Gauss-Jordan elimination. Gaussian elimination. Matrices. LU-decomposition. Vector spaces. Inner product spaces. Gram-Schmidt orthogonalization process. Fourier series. Data fitting. Linear Transformations. Linear functionals. Dual spaces. Eigenvalues and eigenvectors. Markov chains.

Life of Fred: Five Days of Upper Division Math

#LOFFD - \$24.97CAD / \$19.97USD

Upper division (junior/senior) pure math is much different than calculus. No "word problems," no formulas to memorize, no concrete applications—just puzzles to solve. Instead of learning procedures, students create definitions, theorems, and proofs.

These are the first five days of Fred's teaching set theory, modern algebra, abstract arithmetic, and topology. Each of the 139 assignments / puzzles / questions that he gives his students calls for creativity rather than doing drill work.

Life of Fred: Real Analysis

#LOFRA - \$49.97CAD / \$39.97USD

Real Analysis is one of the central building blocks for later mathematics. It is a mandatory for math majors.

OTHER LIFE OF FRED BOOKS

Dr. Stanley Schmidt has written a number of books that are not math books.

Life of Fred: Chemistry

#LOFCH - \$37.47CAD / \$29.97USD

For 10th Grade through Adult. In a single lecture hour Fred... Finds the weight of a helium atom using ordinary high school chem lab equipment; Determines the value of absolute zero (-273° C) using ordinary high school chem lab equipment; Creates the periodic table of the elements step-by- step; Explains why both Mn 2+ and Mn 3+ exist; Supervises student lab experiments; and much more. This book covers one year of high-school chemistry

Life of Fred: Financial Choices

#LOFFC - \$24.97CAD / \$19.97USD

For 10th Grade through Adult. This book might do more to increase the happiness of its readers than any of the math books (or the four high school language arts books) written by Stan Schmidt. It contains a zillion topics never mentioned in school or at home, **including a guide to retiring in 24 years.** If you want wear clothes or eat or live indoors, this book may help you accomplish those goals.

★ Life of Fred: Logic

#LOFL - \$49.97CAD / \$39.97USD

For 10th Grade through Adult. Do you think Logic is a dry, boring subject? It's not! Not when Fred teaches it. What other math book has a chapter titled "Stinky Logic?" This book doesn't have bothersome "problems" or strenuous "exercises." It has delightful "puzzles," instead. It has serious mathematical Logic, from the basics to advanced topics. As usual, Fred has adventures. Duck comes back. Fred is pressured to buy life insurance for his wife (Fred isn't married). Fred "beeps" the nose of 128 lions.

Prayers at 8:30 #LOFPR - \$24.97CAD / \$19.97USD

Stan wrote a book for those who are serious about talking to God (and listening)! Prayers at 8:30 is an illustrated collection of 104 prayers unlike those you hear on Sunday morning. Also included is a very comprehensive concordance that will enable you to find a specific prayer if you know a few words from it. Written to change your life.

MYSTERY OF HISTORY (MOH)

See our "Atlases and Geography" section and "Super Supplementals" section for resources recommended for use with **Mystery of History.**

THE MYSTERY OF HISTORY (MOH)

Learn History the Way It Was Meant to Be Taught!

Study Bible history with other world events happening at the same time all around the world. Unlike traditional history curriculums, MOH does not separate "Bible History" from "World History" because both streams of history impacted the other, and both streams impacted the future and the world as we know it today, no matter where on earth it was happening. With a classical approach, Linda Hobar weaves the story line together of both world and Bible history in Volume I. Subsequent volumes continue to weave the message of the Gospel through the ages.

MOH will unfold connections in history for you and your children like nothing else. You won't find these significant and amazing stories packaged together just

anywhere. Linda Hobar did the research for you so that you and your students are free to absorb this history and explore the untold mysteries in between.

- **Save time** - teach K-highschool together!
- The lessons are suitable for the youngest to the oldest child. They contain enough meat for your older student, along with suggested supplemental reading and projects, and simple projects for younger children.
- Three lessons a week will complete a volume in one year and make history come alive!
- Go quickly for an overview, slowly for in-depth study
- There are no academic limitations to this syllabus.
- Designed to stand alone, each volume is as simple or as in depth as the individual or family wants it to be.
- many supplemental resources available
- Recommendation: Rotate the volumes as your children advance. ie: 1st grader repeats Volume I at an older age once having completed volumes 2,3, and 4. Next time around they will grasp it at a higher level.

Mystery of History Companion Guides

Inside, you'll find a wealth of activities, teaching helps, and all reproducibles, neatly organized at your fingertips. All the preparation is done for you, including: memory card ideas, Wall of Fame time-line suggestions, grading helps, a supplemental book list, Bible reading list, answer keys, and more!

Requires a good quality Bible Atlas and a Historical Atlas. Hobar recommends The Student Bible Atlas (#S653) and the Rand McNally History Atlas of the World (#S654) listed under "Atlases".

Listen to what our product reviewer, Brenda Menzies, had to say about the Mystery of History: Excellent! Nice lay-out and easy to follow. I really like the way it links Bible characters and events with other parts of world history happening concurrently. Accurate and the summaries of many famous people and legends were particularly interesting and well done.

MYSTERY OF HISTORY VOLUME I

Creation to the Resurrection

Covers world history from Creation to the death and resurrection of Jesus Christ. The text spans the incredible stories of ancient times, ancient lands, and ancient peoples. Includes chronologically based stories from all around the world from Sumer and Babel to Troy, Phoenicia, and Assyria, and the early civilizations of King Wu of China and Asoka of India as well as King David, Julius Caesar, and Xerxes of Persia, and even North America is visited!

Each Old Testament prophet is given a biographical lesson near their contemporaries in old world history.

MYSTERY OF HISTORY VOLUME II

The Early Church and the Middle Ages

The Mystery of History Volume II (AD 30 - 1456) picks up where the story of Vol. I leaves off - at the death and resurrection of Jesus Christ. It is not an easy history to digest. It was amid trials, persecution, and martyrdom that the story of Jesus Christ spread.

Study the fall of Rome, the Dark Ages, the chivalry of knights and damsels, kings and queens, and the peasants who faithfully served them; Vikings and villains; castles and crusades; and the poetry of Dante and Chaucer.

Examine the life of Mohammed and the spread of Islam along with the rise and fall of dynasties in Japan and China. Look at the Coptic (Egyptian) Church and Great Zimbabwe in Africa. Unveil the rituals of the Aztecs and the gold of the Incas in Peru, and visit the early peoples of New Zealand and Greenland.

Learn how God spoke through missionaries like Columba, St. Patrick, and Cyril. See the struggles within the church through the ages. Vol. 2 ends with the tragic death of Joan of Arc, the fall of Constantinople, and the invention of the printing press which spread the Word of God across Europe.

Mystery of History Volume 2

#J3911 - \$62.47CAD / \$49.97USD

Book includes all lessons, pre-tests, quizzes, exercises, worksheets, test, maps, projects and more.

Save time, money, and headaches. The CD includes all pre-tests, quizzes, exercises, worksheets, tests, maps, and appendix pages.

MYSTERY OF HISTORY VOLUME III

The Renaissance, the Reformation, and Growth of Nations

Volume III covers people and events from 1455 to 1707. The Medicis, the Inquisition, and Christopher Columbus. Michelangelo, Martin Luther, and Henry VIII. Copernicus, Shakespeare, and Pocahontas. These are but glimpses of great power, great minds, and great passion.

Volume III look at what was going on all over the world in the order that it happened. So, while the Renaissance and Reformation were taking shape in Europe, we'll look at the rise of wealthy empires in West Africa; the Mogul dynasty of India; and the peaceful lives of the Aboriginals of Australia. We will also visit Ivan the Terrible in Russia and the Tokugawa family in Japan.

Stories will be told of the master painters and sculptors who made the Renaissance famous as well as the scientists and philosophers who dissected it. The time period wouldn't be complete without boarding a ship or two to circumnavigate the globe for spices and riches in the East. Many explorers will touch the soil of North America and start a new chapter in world history.

Recommended that Vol. I and II be studied prior to this volume, but **Volume III can stand alone as a course on Renaissance/Reformation.**

MYSTERY OF HISTORY VOLUME IV

The Wars of Independence to Modern Times

Student Reader with CD Companion Guide

#J3941 - \$93.97CAD / \$74.97USD

Hard cover, full colour textbook with an included CD-Rom containing the 600+ page Companion Guide with Pretests, activities for all ages, quizzes, mapping exercises, timeline directions, reading lists, and more.

Volume IV, the last and final volume of this series, spans three pressure-filled centuries from 1708 to 2014. Starting with Bach and Handel, two of four major composers included in Volume IV, the time period will see numerous "wars of independence." From the American colonies, the heart of Mexico, the goldmines of Australia, the mountaintops of South America, the shores of Greece, and the walls of the Alamo, we will find mankind desperately striving for liberty and freedom through the eighteenth and nineteenth centuries. Most of the time, he will achieve it – but seldom without heartache, revolution, and bloodshed!

★ MYSTERY OF HISTORY SUPER SUPPLEMENTAL COLLECTIONS

The Mystery of History Super Supplemental Collections CDs contain the following:

- **Colouring Pages** – These unique colouring pages were drawn exclusively for The Mystery of History. Each expertly crafted page captures one week of lessons in a beautiful collage of outline figures. (Volume I includes an answer key to help students find the three integrated stories of the week.).
- **Notebooking Pages** – Pages have beautifully designed borders to reflect each lesson and those associated with dates to remember have similar borders highlighting the date. Four different formats.
- **Folderbooks** – Folderbooks provide a meaningful and enjoyable way to help learners grasp concepts. Graphic organizers present material in a different way than words alone. They help the brain sort through and organize facts and concepts and make them easier to remember than straight prose.
- **Challenge Cards** – Each lesson has three questions that give the highlights of who, what, where, when, and how. When memorized over the course of a year, these questions give a framework and chronology of history that will eventually work into their long-term memory.

G. A. HENTY HISTORICAL FICTION

The author of more than 140 books – earning him the title "Prince of Storytellers" – George Alfred Henty wrote carefully researched, immensely popular children's books about fictional youngsters who lived in critical periods of history. These editions are all unabridged reproductions. For ages 10 and up.

A Tale of the Western Plains

#D707 - \$11.47CAD / \$8.97USD

Fact meets fiction in Henty's "fiercely accurate" adventure! Drawing on real-life cowboy tales, Henty transports young readers back to the early days of America's frontier with a narrative that's as exciting as it is educational. Follow Young Hugh Tunstall as he travels from England to the American West and finds work on a cattle ranch, fights Indians, and chases kidnappers. This book paints a picture of a world all children should know. A world where courage, daring, and virtue are all part of a young man's life – and are part of what made America great. (Paperback, 352 pages)

The Boy Knight: A Tale of the Crusades

(272 pages) #D706 - \$8.97CAD / \$6.97USD

An exciting adventure told in magnificent style. Take a ringside seat at historical events as you follow an English lad to the Holy Land as part of King Richard's crusading army, experience the excitement of battle, and share the boy's perilous adventures during his return trip across Europe to England. This story was also published under the name *Winning His Spurs*.

The Cat of Bubastes: A Tale of Ancient Egypt

(320 pages) #D701 - \$9.97CAD / \$7.97USD

Chebron, the young son of the Egyptian high priest, accidentally kills the sacred cat of the great temple at Babastes. In the ensuing riot both he and his companion, Prince Amuba, are forced to flee for their lives. Set in 1250 BC, the time of Moses, this thrilling adventure story offers an evocative look at the ancient Egyptian world. Skilfully interwoven are details about Egyptian religion, geography, the methods by which the Nile was used for irrigation, and how the Egyptians made war and were prepared for burial. (paperback)

In Freedom's Cause: A Story of Wallace & Bruce

#D702 - \$11.47CAD / \$8.97USD

At the end of the 13th century, the oppressed people of Scotland rebelled under the leadership of William Wallace and Robert Bruce. This tale of courage, loyalty, and ingenuity recounts their deeds within an accurate historical context. Fictional protagonist, young Archie Forbes, forms a group of scouts for the Scottish army to fight alongside the legendary chieftains for their country's independence. (paper, 320p)

In the Heart of the Rockies: An Adventure on the Colorado River

#D705 - \$9.97CAD / \$7.97USD

Determined to improve his struggling family's financial situation, sixteen-year-old Tom Wade leaves England in 1860 and sets out for the untamed wilderness of the American Far West. Arriving in the small western outpost of Denver, Colorado, he soon encounters Native American warriors, takes part in big-game hunts, and learns how to survive a mountain winter with nothing but resourcefulness and perseverance. (paperback, 304 pages)

In the Reign of Terror: A Story of the French Revolution

#D708 - \$8.97CAD / \$6.97USD

Return to the tumultuous days of the French Revolution with this captivating tale of adventure and courage. Join Harry and his noble friends as they're swept from their country estate to the riotous streets of Paris. Can Harry rescue the aristocrats from imprisonment and death at the hands of the mob?

Under Drake's Flag: A Tale of the Spanish Main

#D704 - \$8.97CAD / \$6.97USD

This exciting volume follows the adventures of a young lad who sails with Francis Drake. Through the eyes of Ned Hearne, Henty provides a sweeping glimpse of unexplored lands, a harsh seafaring life, and the great sixteenth-century naval battle between the English fleet and the Spanish Armada. (Paperback, 304 pgs.)

With Lee In Virginia (Paperback, 336 pages)

#D703 - \$14.97CAD / \$11.97USD

In this volume, he focuses on the Civil War, as seen through the eyes of a spirited teenager from the South, who staunchly supports the rights of slaves but joins Lee's cavalry and fights for the Confederacy.

Wulf the Saxon: A Story of the Norman

Conquest #D709 - \$11.47CAD / \$8.97USD

Return to the days of the Norman invasion of England and fight alongside a nobleman serving the last of England's Anglo-Saxon monarchs. Wulf of Steyning, a Saxon thane loyal to King Harold Godwinson, boldly captures a castle in the Welsh wars, risks his life to rescue his shipwrecked sovereign, and combats Norsemen at the Battle of Stamford Bridge. Wulf and his comrades stand by King Harold in a series of adventures that climax at the Battle of Hastings. (Paperback, 352 pages)

Developing Critical Thinking through Science presents standards-based, hands-on, minds-on activities that help students learn basic physical science principles and the scientific method of investigation. Each activity is a 10- to 30-minute guided experiment in which students are prompted to verbalize their step-by-step observations, predictions, and conclusions. Reproducible pictures or charts are included when needed, but the focus is inquiry-based, hands-on science. Preparation time is short, and most materials can be found around the home. Step-by-step procedures, questions, answer guidelines, and clear illustrations are provided. Practical applications at the end of each activity relate science concepts to real-life experiences.

Science Detective

Science Detective™ uses topics and skills drawn from national science standards to prepare your child for more advanced science courses and new assessments that measure reasoning, reading comprehension, and writing in science. Students read lessons that include a variety of charts, tables, and graphs. They answer critical thinking questions to improve their understanding of the science concepts and develop their reading comprehension, and inferential and deductive thinking skills. Students can't just scan the story for answers – they must carefully analyse and synthesize the information from the text and the charts, tables, and graphs to explain and support their answers. Includes teacher and student introductions, a chart of topics and key Ideas to help select activities, and detailed answers. **Reproducible**, 150-170 pages.

HEALTH INTRODUCTION

YOU ARE MOST LIKELY POISONING YOURSELF EVERY DAY!

Would you put a bottle of anti-freeze in your medicine cabinet with your bath soap, shampoos, deodorants, cosmetics, lotions and toothpastes? Would you wash your floors with it? You say, "Of course not!"

Did you know that Propylene Glycol (PG), Polyethylene Glycol (PEG), Butylene Glycol (BG) and Ethylene Glycol (EG) are all petroleum derivatives that act as solvents, surfactants, and wetting agents? These glycols easily penetrate the skin, weakening protein and cellular structure as they do! Did you know factory workers who work with these glycols are warned to avoid skin contact to prevent brain, liver, and kidney abnormalities? PG is present in many stick deodorants, often in heavier concentration than in most industrial applications. (Nyack, Dr. Vin, Ph.D., Biochemist). Propylene Glycol is used to carry the "active" ingredients in transdermal patches INTO YOUR BODY. These glycols are present in MOST toiletries (even health store products) and is often a main ingredient! Shocked? You should be!

Ask yourself What's Anti-Freeze doing IN my soap, shampoos, deodorants, cosmetics, lotions, and toothpaste?

And we haven't even talked about the other known poisons in the products you put onto and into your body such as (to name only a few): sodium lauryl sulfate (SLS), sodium laureth sulfate, formaldehyde, cocamide DEA, titanium dioxide, saccharin, and FD&C Blue#1 – all known carcinogens – meaning cancer causing! Or how about aspartame - a known excitotoxin? Did you know that MSG is found in many of your toiletries and supplements, giving the same side effects but masquerading under the names of hydrolysed protein, calcium caseinate, autolyzed yeast, disodium inosinate, yeast extract, and a host of other cloaks? Even most mineral and vitamin formulations/supplements are made with carcinogens and rancid oils!

HEALTH

Long before you get the cancer, your body just gets plain sick, the brain can get foggy, children can be labelled with "learning disabilities," and older folks suffer forgetfulness and clumsiness that may be no more than the manifestation of "intolerance to all the chemicals being slathered on and poured onto and into their bodies!"

Our promise to you:

1. ALL the healthy products sold in our catalogue have been carefully and extensively researched and personally used by us before we offer them to you.
2. We have been careful to find products that contain non-carcinogenic ingredients, are often certified organic, and are always free of pesticides, herbicides and harmful chemicals.
3. These products work towards promoting not only a healthy physical body, but also create the foundations for improving your emotional and mental health. When your physical body is strong and healthy, the emotional and mental health can follow.
4. Most of these products will simplify your life and, because they are concentrated, are less costly. Especially when you consider that you will pay less in the future for health care!

TROPICAL TRADITIONS SOAP

Tropical Traditions Hand Soap - Unscented

#TT5151 - 240 ml Pump . . \$8.27*CAD / \$6.57USD
#TT5152 - 950 ml Bottle . \$37.97*CAD /\$30.97USD

The key to any healthy, natural soap is the oil that is used as the base. Tropical Traditions soaps are made with 100% Organic Virgin Coconut Oil that is made in the traditional fashion from fresh organic coconuts. Independent laboratory tests show that it has a higher level of antioxidants than other coconut oils.

This soap is packaged in a special foam pump dispenser that adds air to the soap, causing a rich lather of foam to come out. It is a pure liquid soap with no added fillers or thickening agents. Because of these two factors you get more uses per container.

Ingredients: saponified organic virgin coconut oil.

TROPICAL TRADITIONS

SKIN CARE PRODUCTS

Here it is! A line of skin care products free of carcinogens and any ingredients you would not want to put into your body!

Filipinos are well known for their youthful appearance and soft skin, even though they live in a climate that exposes them to the sun's rays year round. Coconut oil is their main dietary oil, and is also the main ingredient in their skin care products.

Only the finest, highest quality, organic products used! All of the skin care products that Tropical Traditions offers are made with organic Virgin Coconut Oil and Virgin Palm Oil. No other products on the market are made with finer oils as their base. Tropical Traditions Virgin Coconut Oil is traditionally made from fresh organic coconuts, and independent laboratory tests show that it has a higher level of antioxidants than other coconut oils. These oils are food grade, not the lower grade, lower quality coconut oils often found in other lines of skin care products.

Virgin Palm Oil contains high concentrations of a powerful form of Vitamin E called "tocotrienols" which published research has shown is 40-60 times more potent than alpha-tocopherol (the most common form of Vitamin E found as an additive in most skin care products.) In addition to these powerful Vitamin E tocotrienols, Virgin Palm Oil is also rich in natural carotenes. It is one of the richest natural plant sources of carotenes with concentrations of 500-700 ppm. It is 15 times more retinol-equivalent than carrots and 300 times more than tomatoes, for example.

In addition to using only the best oils available for the skin, all other ingredients used in Tropical Traditions Skin Care Products are 100% natural. Their hand-made creams, lotions and lip balms **contain no alcohols, no artificial fragrances, and no petroleum products.** Since many people have sensitivities to fragrances, each product has an unscented version. For those products that are scented, only high quality organic essential oils which are distilled with low temperature and low pressure over an extended period of time are used. Low temperature and lower pressure have proven to be the most effective method of obtaining all of the essential constituents from the plant, and provide these products with the very best quality fragrances available.

A blend of essential oils for muscle massage: organic macerated arnica oil, organic essential oils of winter-green, peppermint, clove, helichrysum and spruce.

DEODORANTS

Antiperspirant prevents perspiration, without which the body cannot purge toxins from below the armpits. Those toxins are then trapped and the body deposits them in the lymph nodes below the arms. A high concentration of toxins build up, which can lead to cell mutation – cancer! Nearly ALL breast cancer tumours occur in the upper outside quadrant of the breast area where the lymph nodes are located.

Do you know that aluminum used as an ingredient in many deodorants is suspected of being linked with Alzheimer's and other health problems?

FOR THOUGHT: What you might save by purchasing products for body care, home cleaning, and for eating that contain inexpensive toxic chemicals, rancid oils, and other unhealthy ingredients, you will more than spend in the future on medical costs to fight the resulting damage, diseases and even cancer.

BATH SALT

Nature's Cargo Ocean Crystal Bath Sea Salt

#salt1009 - 1 pound \$5.77*CAD / \$ 5.77USD
#salt1010 - 5 pound \$22.97*CAD / \$22.97USD

It has long been known that many physical weaknesses and diseases are directly related to not having enough magnesium in the body. Your skin is a large and very porous organ that soaks up what you put on it. Your body will literally soak up the magnesium and all of the other minerals present in the Ocean Crystal Bath Sea Salt. It will also not generally dry the skin out because the minerals are balanced. Nature's Cargo Bath Salt helps to draw toxins from the body.

TEETH CLEANERS

TOOTH SOAP®

You can save thousands of dollars over your lifetime in dental bills.

On a search for a natural, fluoride free and fool-proof plan to take care of her family's teeth, one mother discovered the secrets of how every human can have strong, non-decaying teeth and healthy gums throughout their life. Over time she developed a simple 3-step dental hygiene plan that anyone can follow, young or old. This natural approach sure beats visits to the dentist's chair for expensive, painful, traditional dental procedures that may possibly cause as many problems as they solve.

FOR THOUGHT: Your skin is an organ that absorbs what you put on it. What you put on should be just as healthy as what you ingest.

INSECT REPELLENT

Tropical Traditions Insect Repellent

& Moisturizer #TT5161 - \$14.47*CAD / \$11.47USD
All natural, chemical free insect repellent that really works! Moisturizes the skin while preventing mosquitoes and other insects from biting. It is completely safe for children, adults, and pets as it contains no harmful chemicals or artificial fragrances. It can be applied to the entire body including the face. Contains catnip oil, recently shown to be twice as effective as DEET.

Ingredients: purified water, organic virgin coconut oil, organic jojoba, emulsifying wax (plant based, no soy), grapefruit seed extract, virgin palm oil, and organic essential oils of citronella, catnip, lemongrass, peppermint, and tansy.

SHOWER FILTER

Ewater Revitalizing Shower Filter Shower Filter

#EW8101 - \$224.97*CAD / \$179.97USD

Replacement Cartridge

#EW8101C - \$137.47*CAD / \$109.97USD

Energize, revitalize and pamper your body every time you shower or bathe. Absolutely stunning results on hair and skin. Enjoy the purity and energy of nature with every bath and shower! This filter system utilizes six different technologies including far infrared & magnetics, which are sequenced with carbons and KDF for structuring, energizing, chlorine and metal reduction, and powerful water flow. Provides an average 12-15 months of superior bathing and showering per cartridge. It provides a strong water flow with no need to back wash.

- Filters, magnetizes, polarizes, micro clusters, and far infrared enhances your water
- Significantly reduces chlorine, chemicals, metals (i.e. lead), radon and common water contaminants
- Simple to replace filter cartridge and easy to install

ENVIRONMENTAL PROTECTION

Harmony Health EMR Patch

#EW8203 - \$74.97*CAD / \$59.97USD

Ultimate protection against non-ionization radiation, or the negative effect on cellular activity of electromagnetic chaos. Can be used on cell phones, cordless phones, blue tooth devices, computers, laptops, iPads, tablets, and any electronic screen, including TVs, that emits low radiation. EMR defence infusion technology improves the neutralization process to further reduce the potentially damaging effects radiation emitting from wireless transmissions. Should last 12-16 months. Ideally replace once per year for optimal peace of mind and protection.

Harmony Refrigerator Egg

#EW8204 - \$109.97*CAD / \$87.97USD

Keep your meats, vegetables, fruits, poultry, fish, and breads fresher for weeks longer. The Refrigerator Harmony Egg is a revolutionary breakthrough in food preservation that keeps foods fresher longer. Just place one in your fridge and one in your pantry and forget it. It will last many years with no maintenance required. This unique technology works to reduce oxidation and retain the moisture in your food. Best of all, it's all natural, non-toxic and environmentally safe.

HEALTH

Microwave Bricks

#EW8205 - \$111.97*CAD / \$89.97USD

Now you can microwave your food and limit or eliminate the usual destruction, agglomeration and free radical activity that affects the blood almost immediately. This unique appliance is needed in every home with a microwave. Place two bricks in the back corners of your microwave oven. Popcorn, leftovers, and hot beverages can now be heated with minimal retention of the damaging negative energies, even structural DNA damage appears to be minimized.

Filter Squeeze Bottle

#EW8250 - \$48.97*CAD / \$38.97USD

The Travel Filter Squeeze Bottle reduces fluoride, while very effectively reducing chlorine, chemicals, chlorine by-products, metals, pesticides, parasites, bacteria, and dissolved solids. It also improves the taste of water. It requires a good squeeze to force water through the element and into any container. Exceptionally light and space efficient. Fill with clean socks when travelling! Holds 28oz (820 ml). Rated for 100 gallons of filtered water, tested to 200 gallons.

REMEMBER: What you put into and onto your body plays a major role in how well your body works and your brain functions! If you use toxic laden products – reap a toxic laden body with all of the resulting problems.

TROPICAL TRADITIONS COCONUT PRODUCTS

Tropical Traditions Coconut oil:

- is NOT hydrogenated, contains NO trans fatty acids
- is made from **certified organic** coconuts that have NOT been treated with chemicals or fertilizers.
- is solid below 76 degrees F. and liquid above that.
- has been a staple cooking oil for thousands of years
- is resistant to mutations of fatty acid chains even when used in higher cooking temperatures.
- can be applied directly to the skin as a moisturizer
- can be used as a spread as well as in cooking.
- although much maligned in the past years, studies prove organic virgin coconut oil is healthy for you and for your pets!
- research shows that the medium chain fatty acids found in coconut oil boost the body's metabolism, raises body temperatures, and helps provide greater energy which can lead to weight loss.
- is rich in lauric acid, a nutrient that supports the body's immune system.
- 3-4 tbs. per day can be beneficial for a host of reasons and in a weight loss program

Virgin Coconut Oil Book (Paperback, 224 pgs)

#TT5009 - \$13.97CAD / \$10.97USD

Author: Brian & Marianita Jader Shilhavy
Unsure about the value of coconut oil? This book will provide you with the science behind the benefits of using coconut oil. It also contains testimonials of how people who have used this oil have cleared up many health problems in themselves and their pets. You will find 77 recipes complete with nutritional data analysis.

Gold Label Virgin Coconut Oil

Tropical Traditions Gold Label Coconut Oil retains the taste and fragrance of coconuts. Available in pint, quart (947ml), and gallon pail (3.78L)

Expeller Pressed Coconut Oil

The Expeller Pressed coconut oil goes through a steam deodorizing process, making the taste **very bland** and there is **no coconut fragrance**. Its health giving properties are not compromised. It is made the "old" way by expeller pressed mechanical extraction. Available in quart, gallon pail and 5 gallon pail

Coconut Cream Concentrate

Coconut Cream Concentrate is the whole coconut meat in concentrated form. This is a food, and it is not a cooking oil. Mix 1 or 2 teaspoons of Coconut Cream Concentrate with water or juice to make a creamy coconut milk drink. Available in pint (473ml) and quart (947ml) jars.

Tropical Traditions Coconut Flour

This certified organic, unsweetened coconut flour is fibre from the coconut meat after most of the oil has been extracted to make Virgin Coconut Oil. Tropical Traditions organic coconut flour has not been treated with sulfites, is high in dietary fibre and protein, and is gluten-free. It can be added to standard wheat-based recipes to add extra fibre, by substituting for 10-30% of the grain-based flour. (Available in 1 kg bags.)

Shredded Coconut (3.5 pounds)

Tropical Traditions 100% natural Shredded Coconut is made from organic dried coconuts in the Philippines that are grown with no fertilizers or pesticides. This premium dried coconut contains no additives or preservatives, and is not sweetened. Unlike most dried coconut on the market, our dried coconut products are not treated with sulfites to keep them white. They are a great addition to recipes and baking, or just for snacks! The Shredded Coconut is a very small cut, suitable for baking, such as making macaroons.

ORGANIC SEA SALT

Treat your body to the benefits of this real, true salt as it is supposed to be (not the common table salt which is the chemical sodium chloride). Naturally occurring elements and minerals buffer sodium chloride and balance hydrochloric acid. Traditional table salt is dead, and many sea salts are heavily refined, removing important components. Natures Cargo Sea Salt™ has a perfect balance of essential trace minerals and gases. Excellent as an aid to digestion and for those with high blood pressure. Remember, a traditional "salt" restricted diet is actually a restriction of "sodium chloride," not of salt that is in harmony with the natural saltiness of the human body. Nature's Cargo Sea Salt™ is literally a living salt.

**The grinders in the 3.5 oz. combos are disposable after a few fillings. For long-term use, see the Nature's Cargo Salt grinder listed below.

Sacred Salts™

A blend of Earth's Finest Salts! **Black salts** from the Hawaiian Islands, **pink salts** from the Himalayan mountains, **crystal salts** from the Pacific ocean, and **rose salts** from the Andes mountains in Peru. Ancient cultures have used these unique varieties of salts for centuries. Unprocessed, unrefined, and high in natural minerals.

#salt1011 Grinder \$23.97*CAD / \$23.97USD
 Ceramic Wheel Grinder will last for years, is 6.5" tall, with a 3-part ceramic wheel for grinding the Coarse salts. Regular pepper/spice mills generally have parts that will rust when in contact with salt!

LAUNDRY

Nellie's Dryer Balls

#HL799 - \$14.97*CAD / \$14.97USD

Nellie's™ Dryer Balls are a safe, toxic free and environmentally friendly way to soften your laundry while reducing drying time and softening fabrics without the use of chemical fabric softeners. As the balls tumble around in the dryer they lift and separate fabrics allowing air to flow more efficiently - reducing drying time up to 25%. Saves time and money! These last much longer than cheaper imitations.

CURRICULUM RECOMMENDATIONS

CURRICULUM RECOMMENDATIONS

Confused? Not sure just what curriculum you need? Let us help you wade through the many options! We have been helping people just like you since 1985 as a family & 1993 as a business!

Our Personal Educational Philosophy:

- to build each individual, whether child or adult, spiritually and in Godly character
- learning and growth are life-long processes.
- to train children in life skills, physically, and mentally in that we teach them to think and be creative, and academically by laying strong foundations in math and English. This goes beyond filling their heads with facts and "school work."
- to provide needed time for play and ministry

Academic resources:

- need to give great results
- not have a lot of repetitive busy work
- need to be easy to use with a minimum of pre-planning (if any!)
- be adaptable to any learning or teaching style.

We specialize in resources for building spiritual and character development.

Our Resources:

1. help you to educate your child spiritually (at the heart level), academically, and sometimes, physically
2. complement each other
3. are easy to use and effective
4. take little or no preparation time and require a minimum of teaching time
5. many are "ungraded" - meaning you can teach several ages of children together - saving you time!
6. are often advanced so your child learns more, more quickly, thus saving you money down the road
7. Don't let the low prices have you thinking these are not complete curriculums. They ARE COMPLETE! We have looked hard and long to find dynamic, effective resources at prices you can afford.

Important Notes:

1. Items we sell are thoroughly explained. See sample pages on our web sites.

<http://www.ReadingDevelopmentSeries.com>
<http://www.ClimbingtoGoodEnglish.com>
<http://www.uniquemath.com>
<http://www.LifeofFredMath.com>
<http://www.ProfessorBMath.joycenter.on.ca>

2. We often sell "package deals" at a discount
3. All items are available for individual purchase
4. Sample lessons, pages of books, sound-bites are on our web sites and more are being added regularly.

What Style of Curriculum to use: We recommend purchasing resources (tools) the teaching parent will feel comfortable with. If you try to find resources in every subject specifically for each child's learning style, you will soon be swamped with stuff that you don't get the hang of using before you are on to something else for the next child! Adapt your tool to your individual children and their unique learning styles. The resources we carry lend themselves well to being adapted by teacher and learner! Learn to use your tools and, like using a butter knife for spreading butter, opening a jar, screwing a screw, prying off a paint can lid, punching a hole, cutting bread, propping up a window, and curling a ribbon, be creative!

Getting Started: We recommend starting out with just math, English, and thinking skills instruction until the child is about age ten or eleven. Fill the rest of your day with lessons in practical life skills, spiritual and character development, art and music. With strong foundations in these areas your child will be ready to tackle any other subject later on and will face life with Biblical wisdom and Godly character. Add science and social studies as there is interest, if the child is older, or if your School Board insists.

Using ungraded and graded curriculum: Few children are solidly working at one specific artificial "grade" level so the ungraded materials are excellent and can be used with a range of ages. Consider the "graded" resources we sell as "levels" to go through at your child's speed – whether that be slower or faster than others, much like playing a piano. Start with one or two resources at a time and gradually add new studies to your basics.

Working Together for Your Success

1. CALL US at 519-925-9721 Monday through Friday if you have ANY questions, can't figure something out, or a resource just doesn't seem to be working for you. We just might have the solution or, at the very least, we can help point you in the right direction! Don't be embarrassed. Don't quit – just ask! We'll come along side and help you in any way we can because we have "been there too!"

2. REMEMBER, even parents have a learning style and curve. Sometimes it takes time to get used to a resource or a new way of teaching your child. Be patient – you are learning too!! Whether you are home educating or are doing after school enrichment or remedial help programs with your children, or are

6. **Strayer-Upton Practical Arithmetic** – inexpensive, practical approach designed for independent learning. (Grades 3-8)

♥ “The heart of education is the education of the heart!” ♥

NOTE: MATH CHOICES

Professor B Math is an excellent, economical, ungraded approach, teaching math skills to a solid 7th grade level within 3-5 years, beginning with children as young as 5 or 6 or older. **Professor B Algebra I** and **II** is a solid high school course. We realize many people want a graded, traditional approach in the early years, so we offer you **Spunky Math** for grades 1 & 2, **Study Time Math** and **Strayer-Upton** for grades 3-8. They are traditional approaches with practical life applications, no “busy work,” and a simple, solid, no-fuss approach. Use Spunky or Study Time on their own or as supplements to Prof. B to cover areas such as geometry, charts, graphs, money, temperatures. **Life of Fred Elementary Math to Advanced Algebra** – Uses a story line, lots of word problems, humour, practical applications. Written as novels about a character named Fred.

Mathematical Reasoning by Critical Thinking Press is a full colour, reproducible curriculum for pre-kindergarten through Algebra One and Geometry.

Life of Fred Math Advanced Math – prepares the student for third year university math! This is NOT a traditional approach but is excellent for making math fun and relevant. Program is complete, on its own. Books for Geometry, Trigonometry, Calculus, Statistics & Linear Algebra.

It is vital for young adults and for adults to be constantly learning so they can realize their life potential.

Be sure to check out these catalogue sections

- Success Training (see sections of that name)
- Health books
- Life of Fred "Financial Choices" (valuable for adults)
- James Madison Critical Thinking Course
- ReboundAir™ and Vikan Trampolines and rebounders – healthy body - healthy brain!
- Spin Ball - to develop coordination and just for fun and de-stressing
- Games: Tantrix and Tenzi

NOTE: The English and math curriculums we sell are black and white. Colourful pictures, while appealing, can be very distracting and draw the child's attention away from the skill being taught. There are lots of other opportunities to enjoy bright and colourful books.

CURRICULUM RECOMMENDATIONS

HISTORY & SCIENCE

Make History and Science come alive! In addition to the fine curriculums we suggest, we strongly recommend that you expose your children to other great books. We offer excellent biographies, adventures and other novels that carry strong history, science and/or geography themes. Many of these books are wonderful for reading as a family.

We Recommend:

We do not sell the following resources but we highly recommend:

- Christ Centered Curriculum early phonics and math - www.christcenteredcurriculum.com
- www.Candy4WayPhonics.com
- www.AnyKeyMusic.com –excellent piano instruction
- www.getunbound.org – earn a degree while doing high school!
- www.ArtofEloquence.com - communication skills
- www.forgottenbooks.org - repository of old books

Dr Davis and Learning Parent

Due to time constraints on our part we are no longer at this time able to produce for sale CDs and DVDs. Contact these companies directly to purchase their excellent and highly recommended resources:

- Dr. S.M. Davis Ministries - Solve Family Problems www.solvefamilyproblems.org
- Rick and Marilyn Boyer - The Learning Parent www.characterconcepts.com

Of Special Note:

While academic learning is of importance, one must be sure to take care of spiritual, physical, mental and social health and development. See Table of Contents and Index for these especially important resources.

Physical & Mental: ReboundAir™ rebounders and Vikan Trampolines

Physical: see Health section.

Spiritual Development: Doorposts

Mental: Critical Thinking Press - Building Thinking Skills, the James Madison Critical Thinking Course

Social: Emily Post; and the resources in the Life Skills and Manners section

Success Training: we can't stress these resources enough! For teens through adulthood.

Are you demonstrating what it means to be a lifelong learner?

When is the last time you, as an adult, learned something new, read a book, or listened to a seminar?

Truth: If you want things to change, you have to change what you are doing!

Change and success begin with you.
Each are only a decision away.

NOTE OF ENCOURAGEMENT:

All of the options for taking care of your physical health and spiritual health, for resources for your family, and curriculum for the home educated can be overwhelming. It seems every product or resource screams, "Take Me!"

With having less than stellar health for most of my life, the advice, recommendations, encouragement to read this or that book, and take products "xyz" for everything that ails one have flooded in.

Having been actively involved in educating children at home for 20 years, I know that lists of recommendations, reading through stacks of catalogues, listening to how other people home school and hearing about what they use, deciding what we should use, and listening to all of those voices flooding into our ears (both supportive and accusatory), thinking about all the "what ifs", perhaps lacking self-confidence, and . . . can be overwhelming and discouraging! It can all make you want to quit before you start.

A reading I received years ago, when my role as a pastor's wife was getting overwhelming, has been a great encouragement to me. I share this with you:

I believe, with Christ living in me through the Holy Spirit, recognized, trusted and obeyed, my life today can be happy, restful and strong. DELIBERATELY I surrender my life to Him and trust Him to do the mighty work within of cleansing and empowering.

I believe also that God will manage my affairs today if I hand over the control to Him. I do that now and refuse to take anything back into my care.

In this faith, I go out into the day with quietness and confidence as my strength.

Under Control

"Everything's under control,"
Praise God, there's peace in my soul;
Though problems abound,
I have heard the blessed sound -
"Everything's under control."

Sometimes we wrestle so long
With problems when things all go wrong.
Our minds may not see
What the answer might be
But everything's under control.

The controlling is not done by me;
Though things aren't as I'd like them to be.
But when I've done my best,
God takes care of the rest,
And everything's under control.

Praise God, when I'm in His control
And to Him have committed the whole,
His living wisdom and might
Will make things turn out right -
For everything's under control.
